APOTHECARIES' HALL.

CHOLERA MEDICINES put up in small packets, with copious printed directions, will be kept constantly on hand.

In consequence of the Asiatic Cholera having appeared in Halifax, the Subscriber, after carefully examining the most scientific documents on the subject, has been induced to draw up a code of directions for the prevention and treatment of the disease, in order that those who live at a distance from medical assistance, may be enabled to render prompt aid until they can procure medical attendance. As this awful disease runs its course, and often ends fatally in a few hours, it is absolutely necessary for families to supply themselves with all the most approved medical remedies that no time may be lost in the first appearance of the malady; for in fact, if the patient attends to the preliminary symptoms, and applies the proper medicines, he will almost always be successful in preventing the disease; or at all events, rendering the attack much more mild and manageable.

TWO PENNY MAGAZINE.

on Weekly Museum of Literature, Amusement and Instruction.

AMONG all the periodical publications New Brunswick and the sister Province, there is none devoted exclusively to general instruction and amusement. The very nature of Newspapers presents their efforts to readers such interesting matter, connected with politics and the daily occurrences of life, and more especially are they unadapted for the indiscriminate perusal of youth. The writer has had repeated opportunities of discovering, that something of a different nature is very desirable; many parents wish for the establishment of a small publication, exclusively composed of such instructive and interesting matter, as they may safely furnish for the regular perusal of their children; while country residents, by whom a frequent accession of books is unobtainable, greatly desire an opportunity of obtaining a periodical supply of useful and amusing information, at a cheap rate. To accomplish this desideratum, and thus to afford an agreeable companion for the leisure hours of such persons, it has been determined to commence the publication above named. The work will consist of a pleasing and varied succession of brief articles, comprising every description, (exclusive of politics and daily news,) in LITERATURE, SCIENCE and the ARTS, original and selected TALES, SKETCHES, BIOGRAPHIES, ANECDOTES, ESSAYS, REFLECTIONS, Notices of New Publications, Poetry, &c. in short, it is intended to form a complete Museum of useful and interesting reading, such as may be acceptable to all ages and classes, and which, while it will occupy the mind with very varied subjects, will in every thing, be auxiliary to the promotion of religion and morality.

The Two Penny Magazine will be printed on good paper with new type; each number will contain eight handsome octavo pages, which will be paged successively, so as to form a neat volume at the end of the year. From its exceedingly low price, (only three-pence per weekly number,) it will be within the reach of all classes, and it is therefore to be presumed that it will meet with an extensive circulation; which, alone can ensure its continuance. The first number will appear on, Wednesday, December 2d, after which it will be published on every succeeding Wednesday, and sold at the Store of the Editor and Proprietor.

GEORGE BLATCH, Market Square, St. John, Oct. 4.

Editors of Newspapers will confer a favour by bestowing a friendly notice on the above; and they as well as other respectable individuals, are respectfully requested to act as Agents for the work—Every Agent, obtaining and guaranteeing subscriptions for twenty copies, will receive an additional copy gratis.—Liberal allowance to Booksellers, &c. purchasing quantities.—It is desirable that, as far as practicable, orders should be forwarded to the Editor previous to the publication of the first No. for the purpose of regulating the number of copies to be struck off.
