Joker's Corner

How did that show of a ghost make out on the road?

The Buxom Belle—The elastic skin man is getting up an orchestra.

The Tiny Tot—Sort of a rubber band, eh?

"Miss Smith?"

"What's an ocean greyhound after it's turned turtle?"

Justice—You are charged with stealing nine of Col. Henry's hens last night. Have you any witnesses?

Brother Swagback—Nursing! I speak the rather peculiar dial-way, but it ain't never been much custom to talk witless along when I goes out chicken stealin' ash.

"Yes," admitted a heartless legislator, "I accompanied the deputation as desired and found the conditions existing in the slums deplorable—simply deplorable."

"They are, my dear sir," said the expectant missionary, "and what do you—er—propose to do about these deplorable conditions?"

"Deplore them, my friend—deplore them!" was the calm rejoinder.

A wise man, a brainy man, will always question himself severely. He will admit that he is liable to be ignorant and so will seek knowledge. But what can be said of the farmer who keeps poor, unprofitable cows year after year and don't know it and will try to know it? Can he improve? Can he make more money in dairying?—Hoard's Dairyman.

THE NAME TELLS THE QUALITY

The Taking Cold Habit

The old cold goes; a new one quickly comes. It's the story of a weak throat, weak lungs, a tendency to consumption. Ayer's Cherry Pectoral breaks up the taking-cold habit. It strengthens, soothes, heals. Ask your doctor about it.

Many a frail, nervous, or bony man has been cured by a little kindness. Speak to such a one gently and soothingly, and if frightened reassuringly. When he has driven you well, give him a kindly pat, a hearty word, and an apple to eat, or a bit of sugar, and notice how almost human is his pride and gratification. Remember that this is a love and fealty which can never be bought. You cannot tempt him with goods or any material reward. The value of these he cannot know, but he will give you loyal love, and that is no slight measure.

The professor in charge of a Princeton class room had been annoyed by the tardy entrance of a student. He pointedly ceased talking until the man took his seat.

After lecture the student apologized.

"Professor," said he, "my watch was 15 minutes out of the way. It's bothered me good deal lately, but after this I shall put no more faith in it."

"It's not faith you want in it," replied the professor, "it's works."

Hens Answer Bugle Call.

To John A. Dierksen, who is now on Sherman Island, Calif., belongs the credit for one of the cleverest achievements ever seen in this section. Dierksen is a chicken fancier, and has about 300 fowls in his charge.

He also loves the music of the bugle, and for many years blew calls in the German army. He conceived the notion that it would be a great feat to teach the chickens to come to supper when a bugle was blown.

He started to teach them, and, after months of hard work, finally managed to get them trained so that they knew the "fall in" from the "retreat."

Now whenever visitors call on Dierksen he gives an illustration of 300 hens marching behind thoroughbred roosters while he blows the bugle.—Philadelphia North American.
