Dr. Dewart's Opinion.

"This is a remarkable book. It deals with the great question of the philosophy of human life. The style is vigorous and sparkling, and the views presented, scientific and eminently suggestive. Its subject might be said to be the provision in creation for the many-sided nature of man, and the relation of man's nature to that provision. Dr. Lee grapples with and answers the great question, 'Which is fundamental and prior, mind or matter?' Never have we seen man's relation to external nature more strikingly portrayed. . . . Without endorsing every opinion, we deem it a strong book."
