SOMETHING NEW!
Free
Novelty Rug Machine.

PATENTED MARCH 6th, 1892.

Rugs of the most exquisite design and finish made with ease and rapidity. With it you can make a beautiful rug in a few hours that would require weeks of labour with a loom. You can make a splendid pair of mittens in two or three hours. You can make hoods, tidies, lap robes, door mats, etc. Use either yarn or rag. Any person over twelve years of age can operate it. Easy to learn, simple, durable and perfect. Price only one dollar. A Machine, with full printed directions, also a good mitten pattern, showing how to make mittens, sent by mail prepaid to any address on receipt of price. Rug patterns for sale. Wholesale and retail. Descriptive price list of patterns sent with each Machine. Agents wanted (either ladies or gentlemen), to whom liberal inducements will be given. Address

Knitter.

Lamb Knitting Machine.

The only Complete Family Knitting Machine Made.

It makes socks, stockings, cardigan jackets, scarfs, caps, shirts, drawers, combination suits, mitts, ladies' and children's plain and fancy underclothing, or any other kind of goods you may want. We say it will make all these goods, and say further it will make them in pa- quantities, and only ask for an opportunity to show you the machine in operation. It narrows and widens on all kinds of work. It is no fool narrowing and widening, but exactly the same as in hand-knitting. We make any size, on any kind of work, without adding anything to the machine or taking anything away. No change, no bother, no humbug, but the crowning invention of the age. We want to show you the machine at work; it tells its own story, and will convince you that it has no equal, and is far ahead of the common circular machine as the electric light surpasses the old tallow dip candle. Send for catalogue and price list.

IMPROVED DOUBLE-ACTING PITCHING MACHINE

For unloading hay and all kinds of loose grain.

Sixteen Hundred of these Sold to Canadian Farmers this Season, and all perfectly satisfied.

This Machine can be used in sheds, on stacks or in barns. It can be used to unload on either side of barn floor without being turned around on the track, thus saving the trouble and annoyance in climbing up to the top of the barn to make the change. This is a feature that no other Carrier possesses, and any person who has had the trouble of climbing to the top of the barn to make the change will appreciate this feature. Our Ball Pulley does away with the objection of bundles getting twisted and preventing the Carrier from starting when the load is drawn up, which trouble is sure to arise with all bale pullers. I hold a patent for the Dominion on the Ball Pulley, and any one infringing on the same will be prosecuted. Farmers are cautioned against buying any machines with a Ball Pulley attached, or they will be held liable for damages.

Agents wanted.
