"It will be the judgment of the reader, as it is ours, that few of the books which gather up men's lives are able to contribute so much to the intelligence, breadth and devotion of the reader as the two volumes which will stand as the memorial of a long and influential career, and those to whom, amid the unsettlements and renewed controversies of our time, the theology of our Church stands out with increasing brightness, and by whom it is held with increasing satisfaction, cannot afford to leave these books unpurchased and unread."—*New York Christian Advocate*, Feb. 24, 1887.

NOW READY.

THE MANUAL OF Perspective and Geometrical Drawing.

By T. H. MCGUIRL, B.A., Commercial and Drawing Master, Collingwood
Collegiate Institute.

The above work is the result of careful study in this important branch of High School education. It is in strict conformity with the programme prescribed by the Education Department for candidates for second and third-class certificates. It contains over 100 illustrations in perspective and geometrical drawing, has over 100 illustrated examples, and over 300 problems.

It is a clear and comprehensive description of the subject, well bound in "book form" of 150 pages. It is the ONLY work in America that combines PERSPECTIVE and GEOMETRICAL DRAWING, and the ONLY one in Canada that deals clearly with the theory of PARALLEL and ANGULAR PERSPECTIVE.

No Pupil who is preparing for Examination this year can afford to be without this book.

"Too high approval can scarcely be given of this OXFORD BIBLE. The "Teachers' Edition," a copy of which I have before me, contains a most admirable collection of the several kinds of information which a teacher or pupil would wish to have ready to hand in a single volume. Thus we have a Concordance, Tables of Chronology, Glossary, Maps, Summary of the Books, an account of the Jewish Sects, Money and Weights of the Bible, etc., etc., etc.

"All of these have been prepared by competent men whose names and position are a sufficient guarantee for their general accuracy. It has not been my good fortune heretofore to meet with any publication of the Holy Scriptures so fully and conveniently adapted to serve the wants of the Biblical student.
