

**MUNICIPAL ENGINEERS, CONTRACTORS, AND MATERIALS.**

To remove varnished wallpaper scrape off strips about an inch apart. Then give a coat of hot water, which will soak through in a short time. If this is not effectual, a liberal coat of thick paste may be applied. This will hold the water, preventing it running down. In very obstinate cases, a second coat of paste may be necessary, and it should be applied before the first coat is entirely dry.

Municipal Officers, Contractors and others are requested to mention the CONTRACT RECORD when corresponding with advertisers.
