GRAIN AND PRODUCE

Local grain dealers' quotations are as

Rye-No. 2, 70c per bushel, outside,

Peas-No. 2, 90c, nominal, per bushel, outside.

Buckwheat-70c per bushel, outside,

Manitoba flour—Quotations at Toronto are: First patents, \$5.70, in cotton 10c more; second patents, \$5.20, in cotton 10c more; strong bakers', \$5, in jute.

Barley-For malting, 60c to 63c (47-lb. test); for feed, 48c to 60c, outside, nominal.

Corn-No. 3 yellow, 89c, track. Toronto; on track, at Collingwood, 85c; No. 2 mixed, track, Midland, 84c.

Toronto Sugar Market.

CHICAGO, Sept. 3.—Government estimates regarding wheat corresponded almost exactly with figures computed almost exactly with figures computed in advance here today by private crap experts. The showing was a bearish one, and resulted in a fresh breaking of the low price record for the sea-son. Prices at the close, tho steady, were 1/2c to 3/2c net lower. Latest tradwere 1/sc to 1/sc net lower. Latest trading left corn unchanged to 1/sc down, oats up a shade to 1/sc to 1/sc, and provisions varying from Saturday's level to 12/sc decline.

In the wheat pit, most of the traders treoped to the selling side right at the start. It was not long before the mar-

ket, for the first time this season, dip-ped below 90c a bushel. Under that figure there was good buying to take There was also considerable ealizing in the closing up of "spreads" theless, belief that the government report would confirm optimistic forecasts regarding the crop condition in spring sown fields caused renewed depression

Corn sagged on account of an increase in stocks here and because of a Missouri condition of 86.8 against 84 ast month. Damage in Kansas and Nebraska because of drought prevented a more material decline. The bear Lightness of offerings made oats firm. Cash demand was reported good, both domestic and export. It was not known until after the close that the government estimated the present crop to be the largest ever raised in Manitoba wheat—No. 1 northern, \$1.13½; No. 2 northern, \$1.10½; No. 3 northern, \$1.07½, track, lake ports, nominal; feed wheat, 65½c, lake ports.

Altho prices touched the topmos point in two years, provisions dragged lower. Demand was poor.

NO TIME FOR TRADING ON SMALL MARGINS

Op. High. Low. Cl. Sales, terests, so-called, are said to hold the stocks, but there are some evidences 300 that in the last few weeks the public has been buying stocks, if the facts of larger loans on the part of larger commission houses indicate anything of this kind. On the whole it is no time (if there ever is such a time) for small margins, and while stocks on recessions may be bought for profitable turns, this should be done on an investment basis only; at least until the return flow of money from the immense crop margins, and while stocks on recessions may be bought for profitable turns, this should be done on an investment basis only; at least until the return flow of money from the immense crop begins to smooth out the obstructions.

—I. S. Bache & Co.

POLITICAL CLOUDS HANG OVER WALL ST.

Wall Street is not in a very optimistic mood in spite of very favorable mercantile and industrial conditions. The reasons for this, as already stated, are largely monetary and political Finan-500 cial leaders are still sensitive, perhaps 100 unduly so, over the political outlook.

191/2 20 3,500
100 Nevertheless the financial situation is in many respects distinctly better than at any time during the current year; and should monetary and political conditions improve, we might see a decided increase in stock exchange activity.

This week the Maine election takes place, and the government crop on cereals will be forthcoming. of these events will aid in clarifying the situation.—Henry Clews.
