prove a rather severe blow to the diplomatory of Mr. Chamberlain, who has been lauded on all sides for the great skill he had displayed in the negotiations he had with President Kruger. President Kruger's policy in keeping all knowledge of the incriminating telegrams from the public until the most apportune time arrived for the publication, is considered, even by those who can in no sense be called his admirers, as a master stroke of diplomatic sagacity. It leaves the whole crowd of "Chartered freebooters," as they have been termed, without a leg to stand upon. So convincing is the proof of their complicity in the crime that some of their apologists intimate that some of their apologists intimate that the despatches are forgeries or that they have been wilfully mistransilated.

They prove, if correct, that for some time prior to Dr. Jameson's raid into the Transvaal the leading officials of the Transva

time prior to Dr. Jameson's raid into the Transvaal the leading officials of the "Chartered Company" were fully aware of what was going on and that Dr. Jameson was acting under instructions for some one high in the councils of the company. When the crash came the prime movers in the agitation scurried for shelter and Dr. Jameson made a scapegoat for the whole lot. As it at present stands, President Kruger is master of the situation and considerable interest is felt as to what the next move will be.

Did Rhodes Lie to Chamberlain.

It is noticeable that the papers that were so bitter in their comments against the Transvaal revolt, when the announcement was made of the sentences that had been passed upon Mr. Chamberlain said he had no information on the subject.

TELL-TALE DESPATCHES

Which Go to Show Where the British South Africa Company Was. Pretoria, April 30.-A great sensa tion has been caused here by the publication of a series of telegrams that was entered as evidence at the trial of the members of the Reform Committee. These telegrams, it is claimed here, show beyond any doubt whatever that the raid of Dr. Jameson was not the result of a desire to protect the women and children of Johannes-burg in the event of a rising there, as has been so sedulously argued by certain English newspapers, but was the outcome of a carefully prearranged plan on the part of certain individuals of the South Africa Co. to seize a portion of the Transvaal, a portion well known to be the rich gold reef of Witwatersrand, on which Johannesburg is located.

Prisoners Well Treated.

London, April 30.—A despatch to The Times, from Pretoria, dated April 29, says the health if John Hays Hammond is in such a state as to cause great anxlety to his friends. J. S. Curtis, the mining engineer of New York, is confined to his room with an affection of the brain.

Mrs. Kruger, wife of the President of the Transvaal Republic, has expressed her sympathy with the wives and children of all the condemned men.

The Times correspondent at Pretoria visited the prisoners yesterday afon has been caused here by the pub-

watersrand, on which Johannesburg is located.

Some Were Cipher Telegrams.

Some of the telegrams were in cipher and on their face were apparently harmless business messages that had passed between different men connected with Johannesburg and the South Africa Company. At the time Dr. Jameson and his companions were captured by the Boers the latter found in the doctor's bag a key for code messages. This was taken possession of by the authorities, who later obtained the messages containing words corresponding with those in the key. In certain cases the words in the ortiginal messages could not be deciphered by use of the key and in these cases the code words were read as part of the despatches.

Tell-Taic Despatches.

The Times correspondent at Pretoria visited the prisoners yesterday aftermoon and reports them all well except Hammond, who, however, is as well as can be expected, seeing that he is obliged to eat the ordinary prison fare, which, in the state of his health, is anything but beneficial to him. Ottawa, April 30.-(Special)-Hon:

Bishop Hamilton's Reception.

The Lord Bishop of Ottawa, formerly of Niagara, arrived at Ottawa this afternoon and was met by a large and influential delegation of the Anglican community as well as by the Mayor and members of the City Council. This evening a public reception was tendered to the Bishop in' the drill hall, when nearly 1000 people were present. Among them were the Supreme Court Judges, Sir Chas. Tupper and all the ex-Ministers. Addresses of welcome were presented by the Mayor and corporation, the clergy of the diocese, the lay delegates and the Brotherhood of St. Andrew. Bishop Hamilton created a very favorable impression.

It has been Raining in Manitoba Continuously Since Tuesday Neon-Means a late Wheat Crop.

Winnipeg, April 30.—(Special)—It has been raining continuously since Tuesday noon, and the rain shows no sign of abatement. Thousands of acres of prairie are covered with water, and the streets in the city are almost impassable. Even if the weather should clear at once, no prowing or seeding could be done till the middle of next week. This makes it a certainty that Manitoba's acreage this year will be fully 50 per cent. less than last year. Those farmers who held their wheat are congratulating themesives that the price is sure to go up, and may reach the dollar mark. It looks as if many farmers in the low lying districts will be unable to get in any wheat early enough to escape killing by frost.

This has been a great day of conferences among the politicians and the end is not yet. Sir Charles Tupper has no announcement to make to-day. Possibly he may have to-morrow, both with regard to the Ontario and the Quebec personnel of his Cabinet, which is by no means decided.

Leading Quebec politicians have been thick on the ground for the last

two or three days and more, including Commissioner of Works Nantel, who arrived to-day. While it is generally believed that Mr. Angers yesterday accepted the of-fer of a portfolio, it is by no means so

certain that Sir Adolphe Caron and Mr. Ouimet will be his colleagues. A prominent French Canadian told me to-night that Sir Adolphe Caron and Mr. Ouimet were certainly going, and that the presence of the Quebec contingent here during the past few days was for the purpose of bringing pressure on Sir Charles Tupper on their

fusal of a portfolio. The truth of the matter is, he said, that Mr. Chapleau wanted too much. He would have taken the Public Works Department, but not with Mr. Foster as a member of the Government. The watchword of the Minister of Finance is "Economy" and that means in these days of small surpluses but meagre appropriations for public works. Mr. Chapleau would except on the condition that he had plenty of money to spend and Mr.

Foster's restraining hand removed, It is said to the credit of Mr. Foster that he unreservedly placed himself in the hands of the Premier, telling him that if he were any obstacle in the way of Mr. Chapleau coming in it would be better to leave him out altogether. Mr. Chapleau put in his ultimatum and it was not accepted.

A delegation was here from South Ontario to-day and saw Sir Charles Tupper to press the claims of Mr. Wm. Smith for a portfolio. It is generally, conceded that Mr. Smith would make a splendid administrator and his time will come yet.
