Michigan Lumbermen Have Reached Washington to Tackle the United States Commissioners - They Predict a Lumber Panic in the Country if Present Conditions Continue - Lord Herschell Hopes for a Successful Outcome.

New York, Jan. 25.-A Washington dispatch to The Sun from Washington says that the rate of duty to be charged upon Canadian lumber coming into the United States is said to be the principal thing now remaining to be settled by the Anglo-American Commission. When that has been disposed of a speedy conclusion of the laborers of the Commission may be expected. A delegation of Michigan lumbermen has reached Washington, and will go there to urge the Canadian Commissioners to agree to a compromise of \$1 a thousand. One of them said: 'There are twenty-seven mills on the eastern shore of Michigan, with an average annual capacity of 20 million feet of lumber. If some arrangement is not made by which they can secure logs from Canada they will have to close. Three-fourths of their product goes through planing mills and box factories; and these must close, of course, with the mills. If present conditions continue nine months there will be a lumber panic in the United States and prices will go up \$4 a thousand. There are indications of it now. Buyers have been in Bay City recently looking for a certain grade and quality of logs for a certain price, and they have not been able to obtain it in the usual method, and could not find a carload of it in all the yard.'

Lord Herschell's Hopes.

When the attention of Lord Herschell was called to an Ottawa despatch to the effect that he would sail for England Feb. 8, he said, 'It was his present intention to leave for England at that time. When asked if he thought it probable that the High Commissioner would call on him before he left, he said he hoped so, but did not make any definite statement. He would advise his presence to the effect that the statement was made a few days ago that the Commissioners expected to reach their destination in two weeks, and an invitation was made that an agreement would be reached. Upon the subject of an agreement, he said he had given the answer that such was his hope.'

THE HEIRS WILL BE FOUND.

Mrs. Mary Ann Colam is Dead, but Her Four Children May Be Located.

Mr. E. S. Lapum, a well-known resident of Napawa, writes The World regarding the item which appeared in these columns a few days ago entitled 'Wanted an Heir,' regarding the whereabouts of Mary Ann Colam. Some years ago Mr. Lapum says, he was quite well acquainted with the Colam family and knew all about the circumstances of her husband's death. Mrs. Colam died a few years after her husband and left three daughters and one son. Mr. Lapum has written to England to the effect that he has been unable to locate the heirs of Mrs. Colam, but he will enquire regarding the whereabouts of the children. They were in reduced circumstances when Mr. Lapum last heard of them.

AN ENGLISH FIRM GOT THE MONEY POISON OF DECOMPOSING CORPSE

And Then Failed to Deliver the Goods-Now Uncle Sam Wants That Money Back.

London, Jan. 25.-The Vienna correspondent of The Morning Leader says: 'It has been discovered that the physicians in the free hospitals of Vienna systematically experiment upon their patients, especially new-born children, women who are enfeebled and persons who are dying. In one case a doctor injected the bacilli of an infectious disease from a decomposing corpse into 33 women and three new-born children. In another case a youth who was on the high road to recovery was inoculated with the bacilli of typhoid fever. Many patients have been tortured with poisonous germs and many men have been inoculated with contagious diseases. One doctor, who had received an unlimited number of healthy children from a foundling hospital for experimental purposes, excused himself on the ground that they were cheaper than animals.'

A BILL FOR 'GOOD ROADS' To Be Introduced at the Coming Session-Bicyclists and Others Are Clamoring.

It is said that one of the bills to be presented at the coming session of the Ontario House will be a 'Good Roads' bill to provide a grant towards the maintenance of the main roads, providing government supervision, leaving the townships to look after their own. With this will be included the suggestion that the Government advance money on debentures to the municipalities, in order that the work may be entered on simultaneously. This would be right in line with the bicyclists' movement.

DEPOSITORS WILL PROBABLY GET 75 CENTS ON THE DOLLAR OUT OF THE DEFUNCT INSTITUTION.

Montreal, Jan. 25.-(Special.)-There was a meeting to-day of the depositors of the defunct Banque du Peuple. A statement was read, showing the affairs of the bank on Jan. 1. From that date the assets were reduced to \$1,472,222.22. The liabilities were \$1,885,565. With time the depositors would receive 75 cents on the dollar, which, with the 25 cents already paid, would make 75 cents on the dollar. This was including the 25 cents of \$105,000. After some discussion this was accepted by the meeting.

FAST BALLOON TRAVEL.

A Trip From Berlin to the Russian Frontier-Nighty Miles an Hour.

Berlin, Jan. 25.-Three officers belonging to the aeronautic section of the Imperial army have just made a balloon trip from Berlin to a point beyond the Russian frontier. James O'Connor was taken to St. Michael's Hospital last evening in the ambulance from his boarding-house at 25 Birch-avenue, suffering from a serious attack of typhoid fever. Birch's condition is almost hopeless, and the doctors say he cannot recover.

The Highest on Record.

On his admission to the hospital his temperature was 107.3-5 degrees, and up to 2 o'clock this morning it remained the same, and the unfortunate was unable to sink.

No Remedy Avail.

All the different remedies applied to such patients, including hot and cold baths, have been administered, but all have failed to cure the desired change, which in nearly every case is accomplished. Dr. A. McPhedran is looking after O'Connor, and visited the patient last night.
