

T. EATON CO. LIMITED Canada's Greatest Store T. EATON CO. LIMITED

Making Things Hum for Monday

From Basement to the Top Floor this store is catching the enthusiasm of the holiday season. "Too early," did you say? Not a bit of it, for those who appreciate buying their holiday needs with comfort and leisure. In a week or two the throng of Christmas shoppers will crowd this store at every turn, and many of the best novelties will have been picked up by shrewd and thoughtful buyers. That's why we urge early buying. The best time will be next week.

In the meantime we're making things hum in every department throughout the store. Monday promises to be a particularly busy day. No need to tell you why if you read this list carefully:—

THE HERO OF GLENCOE.

A Memorial Will Be Erected in Cornwall to the Late Sir William Penn Symonds.

Saltash, the little Cornish borough with whose surroundings the late General Sir W. Penn Symonds was so intimately connected, has decided to promote a memorial to that gallant officer.

This decision was arrived at at a meeting

under the presidency of Lord Kingsale, arrangements being also made for opening a fund and for making an appeal not only in Great Britain but throughout the colonies. The memorial is to be placed in the parish church at Botsford, in which village the family have resided for three centuries.

The following is the text of the appeal to be sent to the colonies:

The heartfelt condolence which reached the Mother Country from the colonies on the death of the brave Cornish soldier, General Sir William Penn Symonds,

at Glencoe, has been sincerely appreciated throughout the whole kingdom, and most of all in the neighborhood of his home.

We are denied the honor of sheltering his body, which lies, like that of other great heroes, far away from his kindred, and have therefore determined to appeal to all who honor the memory of the hero who gave his life for his queen and country, to assist us in raising a monument to his memory.

The committee have not yet decided upon the form of the memorial, but it

will in all probability be arranged that his portrait shall be placed in the first place receive such memorials as will be sent to the committee.

We shall be thankful to receive subscriptions for this end, and if they are sent to the Worshipful the Mayor of Saltash, Cornwall, England, will be duly acknowledged.

The Earl of Mount Edgcumbe, the Earl of St. Germans, Viscount Clifden, Lord Falmouth and Field Marshal Lord Roberts are identifying themselves with the movement.

SERVING TWO MASTERS.

One of the biggest electric monopolies in Ontario is that controlled by the Cataract Power Company of Hamilton. This company, which received a special charter from the Legislature in January, 1898, set out to acquire all the electric interests in and about Hamilton, and it has pretty nearly accomplished its object. The Cataract Power Company has all the stock of the following companies locked up in its vaults: Hamilton Street Railway Company; Hamilton Electric Light Company; Electric Power & Manufacturing Company; Hamilton & Radial Railway Company; Hamilton & Dundas Railway.

There is only one independent electric company in Hamilton, and that is the Hamilton, Grimsby & Beamsville Railway. The Cataract Power Company owns all the rest. In addition to owning five subsidiary companies, the Cataract Power Company has a power station at Decew's Falls, where power for its various concerns is to be generated. The company already operates the machinery of the Electric Light Company with its power from Decew's Falls, and more machinery is being installed for producing power to operate all the company's concerns. The company's radial system includes proposed lines to Galt and Guelph. The company recently applied to the Hamilton City Council for a right of way through the city, or for a bonus of \$100,000, in connection with the Guelph and Galt projects. The company proposes to go ahead as soon as the City Council gives the right of way or bonus. It will be seen that the company has ambitious designs.

Where the money has come from to purchase the various subsidiary companies is to the people of Hamilton a conundrum. Some think the capital is supplied by mythical "Americans," but the general belief is that certain electric interests in Toronto are the dark horses. The personnel of the Board of Directors, which is composed of local men, gives no clue to the identity of the prime movers. One great fact that stands out prominently in regard to the Cataract Power Company is that the president of the company is a Provincial Cabinet Minister, viz., Hon. J. M. Gibson, M.L.A., Attorney-General. Mr. Gibson stands before the public as the chief executive officer of the Hamilton Street Railway, the Hamilton & Radial Railway, and the Radial Railway, and his line to Burlington and proposed lines to Galt and Guelph. As president of the Cataract Power Company he is also the chief executive officer of the Hamilton Electric Light Company. It is not necessary for us to cite arguments to prove that the position he holds towards these various enterprises is incompatible with his duty to the public as Attorney-General and a member of the Government. It is impossible for him to serve at the same time both the capitalists who are behind the big electric monopolies and the public. It is from the monopolists that the Government and the companies obtain the privileges that make their business valuable. The interests of the people and of Mr. Gibson's companies are by no means identical. When the Government is called upon to decide between which side will Mr. Gibson favor? We need not speculate on this point. Mr. Gibson is on record. During the past session of the Legislature an amendment to the Municipal Act was passed, making it obligatory for municipalities to purchase the plant of electric lighting companies as a condition precedent to their establishing a plant of their own. Mr. Gibson, of course, supported this amendment. The amendment means a great deal for the Hamilton and other electric light companies, but the people are dealt a severe blow. If Toronto's electric capitalists are behind the Cataract Power Company, they could not have a more valuable servant than Hon. J. M. Gibson, Attorney-General of Ontario. His services are worth thousands to them.

Even in small matters it seems desirable for the unbusinesslike capitalists to have a member of the Government at the head of their big electric monopoly. A week or two ago a by-law of the company was called into question by one of the stockholders. A Hamilton paper of Nov. 4 last thus describes how the validity of the by-law was placed beyond dispute:

"Mr. Moodie was not present at the meeting, but he previously had expressed his disapproval of such a course, as he believed the directors should not get all the common stock. Next day, Aug. 10, Mr. Moodie notified the directors that he had applied to the Hon. J. M. Gibson, Minister of the Interior, for the by-law. The following day Hon. Mr. Gibson made application to the Hon. J. M. Gibson, Minister of the Interior, for the by-law, and such was the magic influence of the member for Eastern Ontario that the document was passed the very next day."

What Mr. Moodie doesn't like about this portion of the arrangement was the statement made by Hon. J. M. Gibson, when applying for the by-law, that Mr. Moodie thought that the shareholders were unanimous in their support of the by-law. Mr. Moodie's objection had been laid before the Ministers, the matter would have been given further and fuller attention."

It was under the Hardy regime that Hon. Mr. Gibson became the servant of the electric capitalists. What has the new Premier to say on the propriety of the Attorney-General's conduct? Does he sanction it? Can he defend it? The public would like to hear from Premier Ross.

THE WAR OF WEEDING.

This is the title by which Dr. Parkin has characterized the war in which the Empire is now engaged. For the first time in its history its different nations have combined their forces for the imperial purpose. "Is it possible," asked Dr. Parkin, "to weild together the vast portions of the world so that it will present an unbroken front to the world?" And his Australian friend replied: "If there is a war and it appeals to the conscience of the Empire, men will be sent, and money will be voted, and we shall come out of the crucible of war as a united people."

"We have the conscience of the Empire with us," said Mr. Balfour. Soldiers have been sent and money has been spent, and enthusiasm for the Empire is glowing in the hearts of men. The iron is at welding heat, the parts are in the right position, but whence are to come the blows, how is the pressure to be exerted upon the Empire so that it will present an unbroken front to the world? The iron will be welded, and an effective union will again be achieved. It would be in order for Dr. Parkin now to ask, as did Mr. Chamberlain, whether the war is worth the cost.

North American Life
Solid as the Continent

Who is good and great? Not the one who fails in life to provide the necessities, to say nothing of comforts, much less luxuries, for loved ones after the death of their breadwinner! Earnings invested in insurance in the North American Life by either men or women—there are plans for both—make the best of provision for the future of one's family.

Write for information and let us, our agents, who are almost everywhere, explain a plan to meet your needs.

L. GOLDMAN, Secretary. WM. McCABE, Managing Director

North American Life,

112-118 King St. West - Toronto, Ont.

aiding on the proposals which are to be brought forward.

We have no doubt whatever that at the next session of the Parliament of Canada, and at the fourth Congress of the Chambers of Commerce of the Empire, the first session of the Imperial Conference, the welding blows will be given for the consolidation of the Empire. What the nature of the action should be it is the duty of every newspaper in the country to ascertain, and we, for our part, propose to follow up this important matter in all its details.

Rate Citizens of Ward 6.

A large meeting of the residents of Ward 6 in the vicinity of Lansdowne crossing met in Brockton Hall last evening to protest against the repeated arrests that are being made at the crossing notwithstanding the order of the Railway Committee of the City Council that a temporary crossing for three months be allowed. Yesterday several arrests were made by constables of the railways. A deputation of some dozen men appointed by the meeting will wait upon Mayor Shaw at noon Monday and public meetings are being arranged for throughout the ward.

All clear Havana cigars sold for \$5.00.

The annual open meeting of the "Harbord Alumni" will be held on Friday evening, Nov. 24, at the Institute.

But, however inspiring the idea may be, Imperial statesmen shrink the duty and call for the election of the plant of the Empire. This they cannot avoid doing much longer, and Canada being the foremost colony, its Government must take action. The first blow to effect the welding must be struck by the Dominion Parliament at its forthcoming session. Recent events indicate that the subject is sure to come up, and it behooves our representatives to weigh the matter well, and be prepared for action of an effective character.

A second opportunity for positive effort will be afforded when the Trade Congress meets in London next June. Then work for the unbusinesslike capitalists to have a member of the Government at the head of their big electric monopoly. A week or two ago a by-law of the company was called into question by one of the stockholders. A Hamilton paper of Nov. 4 last thus describes how the validity of the by-law was placed beyond dispute:

"Mr. Moodie was not present at the meeting, but he previously had expressed his disapproval of such a course, as he believed the directors should not get all the common stock. Next day, Aug. 10, Mr. Moodie notified the directors that he had applied to the Hon. J. M. Gibson, Minister of the Interior, for the by-law. The following day Hon. Mr. Gibson made application to the Hon. J. M. Gibson, Minister of the Interior, for the by-law, and such was the magic influence of the member for Eastern Ontario that the document was passed the very next day."

What Mr. Moodie doesn't like about this portion of the arrangement was the statement made by Hon. J. M. Gibson, when applying for the by-law, that Mr. Moodie thought that the shareholders were unanimous in their support of the by-law. Mr. Moodie's objection had been laid before the Ministers, the matter would have been given further and fuller attention."

It was under the Hardy regime that Hon. Mr. Gibson became the servant of the electric capitalists. What has the new Premier to say on the propriety of the Attorney-General's conduct? Does he sanction it? Can he defend it? The public would like to hear from Premier Ross.

A BABY BOY.

Every expectant mother in the world will sympathize with the somewhat remarkable experience of Mrs. Rev. Walker, of Fillmore, Montgomery, Ala., who writes in an interesting letter to Dr. R. V. Pierce, N.Y., "in regard to your wonderful medicine and what it has done for me. I began taking your 'Favorite Prescription' in October. I took two bottles, and on the first of January following I gave birth to a nine-month-old baby boy, and was only in labor half an hour. There was no pain, and I was at the time of conception but my husband. I would advise expectant mothers to take Dr. Pierce's Favorite Prescription for it will shorten labor, and give greater relief to the doctors. I would not say anything about the medicine if I had not used it for myself. There is no need of suffering if Dr. Pierce's Favorite Prescription is used during pregnancy. May God bless you for a medicine that will preserve life. I am getting so I can do some of my own work without getting tired."

Sensitive, ailing women deserve the true sympathy and helplessness that can only be extended to them by a physician whose wide experience renders him deeply sympathetic of their sufferings and thoroughly familiar with the means of prompt alleviation and cure. You may write Dr. Pierce in perfect confidence. He will send you sensible, fatherly advice free by mail.

A mother will be greatly assisted in the care of her own and her baby's health by the instructions given in Dr. Pierce's great thousand-page, illustrated Common Sense Medical Adviser. This book form will be sent free on receipt of 31 one-cent stamps to pay the cost of customs and mailing, or cloth-bound for 50 stamps.
