Boys at Penetanguishene to be

Sent to Oxford County. The Ontario Government has determined upon a change of policy with respect to the Boys' Reformatory at Penetanguishene. They have decided to remove the lads from that institution and place them in a new reformatory in the county of Oxford. The building at Penetanguishene when vacated by the boys will be used for the custody of the chronic and harmless he province.

insane from the various asylums in The reason assigned for making the change is in order that the boys at the reformatory may receive efficient instruction in farming. There are no adequate facilities for this purpose at Penetanguishene, and therefore the removal to Oxford county has been decided upon. There it will be a comparatively easy matter to place the youthful offenders upon farms and give them a thorough training in agricultural pursuits. The installation of the chronic and harmless insane at Penetanguishene is, the government urge, an economical step. The number of people in the different asylums who come under this category is about 400. They are a class who need very little watching, while they require a simple diet and very few medicines, so that the expense of maintenance will be comparatively light.
