numbers who visited the fair during the day.

Better Than Toronto.

"Toronto never had the class that has been shown here during the last two days," declared one of the judges yesterday afternoon after awarding the ribbons in one of the events that came under his jurisdiction. His were light horses. The same remarks are applicable to the heavy horses, to the cattle, sheep and swine. Judging in all these was carried on briskly yesterday, and some remarkable contests were staged. These came about because of the high class of the exhibits. Some of the finest animals ever exhibited anywhere were to be seen. Especially was this true of the horses and cattle.

In Duroc Jerseys, Cuthbert Malott of Wheatley, and C. Stobbs of Learnington.

the drafts.

Were Five Teams.

There were five teams. He changed his mind. That was practically a decision that the four ribbons would go to the drafts, for in placing them he lined up the five teams of drafts and then picked the four winners. It was a keen contest, but it left the general purpose horses, or at least a majority of them, another chance, for a farmer's special, 1.400 pounds or under, followed. The twelve teams were beauties, and the twelve teams were beauties, and the twelve teams were beauties, and the five teams of drafts were made up of ten as nice horses as were ever exhibited at any fair. J. C. Henderson of Lakeside got the red ribbon. Currie Bros. of Denfield, who showed two teams, got the blue; Henderson Bros. of Lambeth the yellow, and W. H. Falls of Belmont the green.

The pleutity spead with raspberry jam are offered to all who this map is a decident of this concern. They biscuits pleutifully spread with raspberry jam are offered to all who is the mass because this booth. The housewife who visit this booth. The housewife who was unable to secure raspberries this and little purse. One style of mathetic bear and it the purse. One style of mathetic head only apply ply of home-made jam, need only apply ply of home-made jam, need only apply with adjustable cords, which may be drawn up at 20 different points on all sides of the mattress is fitted with adjustable cords, which had proved the condition of the choicest fruit is obtainable, here a superior did in the condition of the choicest fruit is obtainable, here a first-class product is the choicest fruit is o

haps the most consistent winner among the hackneys and carriage. The Shores of Glanworth did well with the thoroughbreds.

Four beautiful animals drew ribbons in the first class of the thoroughbreds, which called for stallions of any age. W. H. Shore stepped to the front, and James McFarlane of Ailsa Craig followed. John Coventry, an old horseman of Woodstock, was tickled with the yellow, and a brother, Alexander, of Ingersoll, drew the green. Mr. Shore's stallion got the only prize, a sweepstake, for the second class.

The remaining classes were not overloaded. Mr. McFarlane was the only one awarded a prize for brood mares, and got first and second for 3-year-old filly or gelding. Alex. Coventry had the only classy 2-year-old, while Mr. McFarlane took the three ribbons for lack. The remaining classes were not overloaded. Mr. McFarlane was the only one awarded a prize for brood mares, and got first and second for 3-year-old filly or gelding. Alex. Coventry had the only classy 2-year-old, while Mr. McFarlane took the three ribbons for 1-year-olds. He showed the only foal of 1918 and was awarded the red ribbon

The Thoroughbred Society gave a couple of specials, 2-year-old gelding or filly and 3-year-old. W. H. Shore took the red in both, C. J. Shore the two blues, and Mr. McFarlane the two yel-

Four heautiful animals drew ribbons in the first class of the thoroughbreds while the proposed to the first cl on the market in combination ranges.
The Pandora, known throughout Canada as the most reliable range, has a special flue system, the overada as the most relative take. The five special flue system, the ovens are all well ventilated, and have glass oven doors. The fire boxes are made of semi-steel, which is a hard heat resisting motal. The Pandora range can be used for wood or coal by simply removing the end linings when you want to use wood. There is also a blue want to use wood. There is also a blu ensinel warming closet and a thermometer. The chief thing about the

mometer. The chief thing about the Pandora range is that it saves coal, which is an important thing in these days of scarcity.

The Regina range, another on exhibition at the Fair, is an inexpensive range of simple construction, is a bright-looking and attractive range with nickel trimmings, suited to the average home. better kind in London you invariably think of the Dennis Wire and Iron Works. Recently this firm has entered a new field in steel, that of hospital supplies, and the success of their work is aptly demonstrated in the Main Building at the Western Fair, where an excellent exhibit of this class of work is on display.

This exhibit is attracting considerable attention. One reason for this is that it is new in Canada, and the other because it is so well made and beautifully finished in white enamet. From a sanitary standpoint these supplies are the last word, and one article in particular—a patented bed screen—is in great demand, having been adopted by the Toronto General Hospital.

The exhibit shows the ideal modern hospital room, and centains instrument the contraction of the Western Fair. Is an inexpensive range of simple construction, is a bright-looking and attractive range with nickel trimings, suited to the average home. Too much cannot be said, thoughout Fair week in the machinery building. This exceptionally fine exhibited by the McClary Manufacturing Company should not be missed by any one visitor to the Western Fair.

a Worry

invites death in a hurry." Worry
wastes nerve force at a tremendous rate. The more exhausted the greater the tendency
to worry.

Then how is one to get out of
this vicious circle? By building
up the nervous system with the
aid of Dr. Chase's Nerve Food.

As the nerves are strengthened you forget to worry and
find yourself resting and sleeping naturally.

DICKS, FLORIST, AT THE FAIR.

No man at the great Western Fair seems more omnipresent than floes Dicks, the florist. Wander past the magnificent miniature factory of the McCormick Manufacturing Company, and his handiwork is seen in the excellent imitation of the factory grounds with tits geranium beds, they annual bushes, real looking sod and so forth. Walk just across the way to the Hunt Bros. Flour Mills and see the trench walled up with sacks of flour, surmounted by real-looking wire entanglements and inclosing a dug-out which 6-inch shells are waiting to be sent on their way. The British, Canadian and American flags and quantities of oak leaves are also used here with artistic effect. Up in the balcony

and ferns, a green and white color
