Canada's reputation as a fur producing country is associated with Labrador mink. Canadian mink is acknowledged to be the most exclusive line on the market. Fur Sets of Mink stand positively alone in the catalogue of good furs. Dineen's furs are purchased direct from the trappers-all personally selected.

PICKERING.

PICKERING, Nov. 23.—The Lay-men's Missionary Movement in the Whitby district is being enthused with a banquet at Brooklin on Friday even-ing next. Judge De Roche of Belleville and Rev. Mr. Manning of Toronto will be speakers. Miss Emma Brodie of Claremont is visiting friends in the village. She in-tends to resume her hospital work at the New Year. Rev. Mr. Bell preached a sermon on Sunday evening, when he ably drew the distinction between the moral and the Christian man. Morality was good, but it did not go far enough. Quite a large number of young men attend his church.

The township has decided to sub-mit a local option bylaw, and voting will take place in January. The tem-perance people met at Brougham for organization. A spirited campaign wil likely be conducted. The Women's Institute meets on Wednesday afternoon, and promises to be of unusual interest. Delegates to Guelph will be elected. Miss Dale, who has spent the last year in California, has returned. Her greatest longing under their sunny skies was to see some clouds and rain. Continual summer there makes farm-ing a much easier proposition, but they have inconveniences that offset some of their good things.

The switches have been extended in town. In the previous whiter seasons the Metropolitan have taught us that they are not so willing to do their duty, and vehicular traffic is sometimes blocked. "North Toronto will not obstruct any reasonable suggestion that can be made for an amicable settlement," said the solicitor. The board should not only consider the four clauses brought to their at-tention, but there are other grievances which might be cited and which will come up during the hearing, and for which evidence has been procured.
