firm. Trade in the wheat pit was rather quiet, and the market was extremely heavy the greater part of the day. Weather con-ditions in the United States and Canada were generally favorable to the new crop, with the exception of sections of Mani-tobs. Harvesting was reported to have started in Southern Illinois and Kansas, with good yields. The greatest selling pressure was on the July delivery. The market closed weak and only a triffe above the lowest point, with July at \$1.8. The fresh slump in wheat was larget in corn, altho the favorable weather for the new crop helped to depress the mar-ket, which closed weak at declines of 4 to ½c, compared with yesterday's final figures. Provisions were firm all day. Hog re-ceipts here were 5000 head less than ex-packing centres were light. At the closes prices were a shade to 15c higher than yesterday's close.
