ship meet staged last night at the arena, with Thorn of Toronto second and Cospove third. There was a good crowd present and the program proved attractive and interesting.

The feature race of the evening was the one mile open race, which was closely contested from start to finish and done in the fast time of 2 minutes and 30 seconds. Thorn carried off the honors, with Cosgrove second and Stevenson third. Stevenson led for the greater part of the trip, but fell during the fourteenth lap. Interference on the home stretch prevented Cosgrove from winning.

Considerable interest was displayed in the half-nile open, which also proved a good attraction. Sievenson was an easy winner in this event, making the good time of one minute and 13 seconds. Cospove was second.

erment to immediately enforce the Militia Act. It was felt that the voluntary system has outlived its usefulness, and that more vigorous methods are necessary to obtain the required number of men for the Canadian army. The speakers were of the opinion that the battalions now organizing cannot be filled by individual effort, and that the chief executive of the country must take action in order to reinforce the men at the front.

At Broadview Y.M.C.A. the meeting was sparsely attended at the beginning, and Sergt. Nightingale, one of the speakers, conceived the idea of rounding up a number of auditors from young men engaged in billiards and shuffle-board in the basement. After a few moments absence he returned and informed the meeting that he had been insulted. His report precipitated a lively discussion in which the Y.M.C.A. was condemned for permitting eligible young men to fritter away their time while the country was in the midst of a serious crisis, and the ruling body was called upon to use such influence as would effect the entistment of all eligibles. The opinion was also expressed that instead of housing the returned soldiers in asylums and jails the government should take over all the institutions of the T.M.C.A. and place them at the disposal of the men who have seen service at the front.

Miss Constance Boulton won loud applease when she declared that the federal authorities should go further than enforce the Militia Act and pass a conscriptive measure. She thought the reason for the small number of men responding to the appeal was that the educationists of the country had not acquainted the young men with a history of the empire and had not inculcated a spirit of patriotism and devotion in their teachings. The time was past, she said, for a voluntary appeal to the manhood of the country and declared that conscription was the only method to meet the present situation.

At the Parkdale Collegiate meeting Sergt. Major Lowery and Mrs. G. G. Lindsey made earnest appeals for recruits. Sergt. Major Lowery, w

SAFETY FIRST ON THE SCREEN.

"Safety First" is the title of an unusually interesting film that is being shown at the Regent Theatre for the first three days of this week. As its name suggests, it is a part of the campaign of the Safety First League. It is designed to inculcate a spirit of carefulness in industrial workers, and at the same time tells a cleverly con-trived story of family life.

THE DAY'S EVENTS REVIEWED

Fire from an unknown cause damaged the home of Max Silverman, 302 where the Portuguese will deal with them. The pursuit of the enemy into East Queen street, to the extent of the fastnesses of East Africa has drawn attention to the splendid qualities \$300 last night. of newly-raised black troops. These only made this operation possible, for white troops could not go where they have gone.

Attacks which improved their positions slightly northeast of Bouchavesnes, on the Somme front, marked the British operations yesterday and the preceding night. In this neighborhood also the British patrols entered German trenches and secured a few prisoners. The activity here has as its object the making untenable of the German positions in the wood of St. Pierre-Vaast. This wood lies to the northeast, and its clearance of the enemy would permit the turning of the Mount St. Quentin position and the opening of the road to Peronne. The British also applied further pressure to the Arras salient by successfully raiding the German trenches south of that town.

The Russian force in Persia is now approaching Kermanshah, on the Mesopotamian frontier, in its movement to meet the British army at Bagdad. The British Mesopotamian army has greatly demoralized the Turks by its effective pursuit. Two-thirds of the Turkish artillery has either fallen into British hands or has fallen into the Tigris River, propelled thither by the Turks. Mosul lies so great a distance north of Bardad that an immediate advance on that point will hardly materialize. For such a longdistance operation considerable further preparations are imperative.

Geneva has heard from Berlin and Vienna that the news of Bagdad' capture caused the greatest surprise in those two capitals. German and Austrian newspapers announced quite recently that large reinforcements had been sent from Aleppo and Smyrna and that with these Bagdad could hold out indefinitely. Geneva opinion, also deeply impressed with the Turkish defeat, expects that the news will have such an effect on the enemy that he will have Turkish contingents from other fronts recalled for home

Reports from the northern part of the county last night indicated that deputations from several of the towns and villages along the line of the Metropolitan Railway will come down to the legislative buildings this morning, and will be present when the application of the city before the private bills committee for the expropriation of the Metropolitan Railway, comes up for hearing.

"we are not going down to oppose everything and anything that the city asks for, but simply to find out what the city proposes to do, and safeguard our rights in the county, if we think they are imperiled," said a prominent business man.

man.

"We did think at the time, and still think," he said, "that the city ought to have called a conference with the representatives of the county before drafting the bill, but that is neither here nor there. The county's attitude depends, in a word, on what the city proposes to do, and we will be guided accordingly."

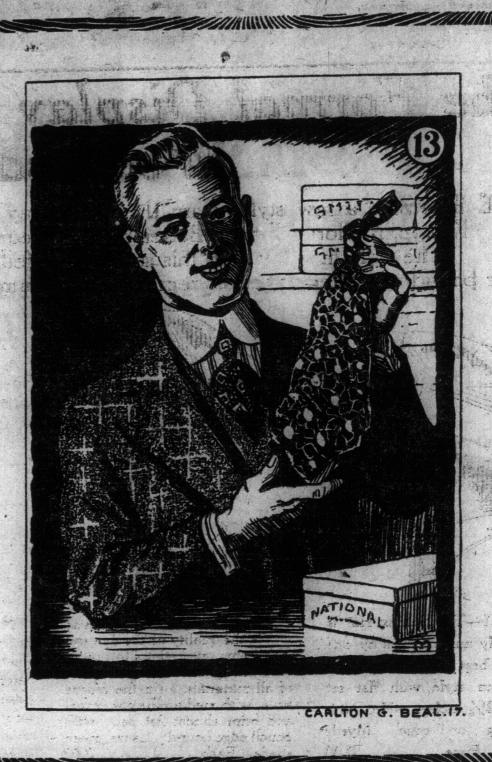

Dr. Burgess, president of the East York Federal Conservative Association, presided over a big meeting of east end Conservatives, held in Snell's Hall, East Toronto, last night. Some of those who spoke during the evening were: George S. Henry, M.L.A.; Dr. W. H. Walters; Joseph Russell, M.L. A.; Capt. Kane and President Gilchrist of the Todmorden Ratepayers' Association. There was little reference to matters political, but the smoker was voted one of the best ever held in East Toronto, and thoroly enjoyable. The side that rebels against the endless drudgery of doing work that doesn't seem to count in these stirring times.
