## Are Toronto Women Uncharitable?

Did it ever occur to you that Toronto women are uncharitable, not towards the poor and needy but towards their own sex? Now this is a crime of which the ladies of every clime and period have been accused. The question therefore arises, are the women of the Queen City more inclined towards it than those of other places?

Listen then to the artificism of a man of the world, one who has traveled and lived in nearly every country on the globe. Pleased with Toronto and its people he has tarried among us for some months, and the following is part of his carefully formed opinion. (Remember that this observer is one who can move with equal ease among any class). He says, "One of the things that have impressed me most about your charming women is that in spite of their charm they have an almost provincial narrowness of mind, a notable lack of charity towards women who are strangers to them, or who differ slightly from their formal direct ideas of what constitutes a nice woman.

of mind, a notable lack of charity towards women who are what constitutes a nice woman.

"Most of the social circles in Toronto are under feminine control. A woman who comes here to make her home or who returns after a long absence must pass unscathed thru an Amazonian bureau of censorship before she is permitted to enter any of the folds. If she emerges from this ordeal with a single blue pencil mark, well, God help her for no woman will.

"And these marks of condemnation are so freely used; they are applied on such slight grounds. Let a woman come among you with an unconventional fashion of dress, a new manner of speech or, most helnous of all, original ideas, and every feminine thumb turns down as if actuated by a mechanical lever.

"The new arrival in question may have charm of manner, she may be acomplished, she may be intellectual, but if she does not conform to the Toronto females' idea of 'niceness' she is at once consigned to social oblivion. That she may have made friends among the males of the community does not help her. In fact a facility in securing the friendship and admiration of men is rather a hindrance to her gaining any position among the women. It is at once imputed by her charitable sisters that the inducements she holds out to the stronger sex are of a doubtful order, and by a few head-waggings and left-handed compliments her reputation is speed"And all the time the poor victim from some other and often a much

"And all the time the poor victim from some other and often a much broader sphere stands outside the door and wonders why she is not admitted. She knows that she is as worthy and possibly more so than some of those who inhabit the inner circles. As I have said, she may be accomplished and clever, but in spite of it she is a social outcast. Why? Because she is that dreadful thing which no true Toronto lady can contemplate without a shudder—a woman who is different."

Miss Hunt's Recital A large and appreciative audience filled the Conservatory Music Hall on Saturday evening last, the occasion being a recital by Miss Grace Campbell Hunt, a senior student of the Conservatory School of Expression. From start to finish Miss Hunt held her audience thru a varied and difficult program.

One of her finest numbers was a money he bought the candles which were a necessary aid to his secret studies in his tiny bedroom.
