O'LEARY IS WEAKER; BATTLE TODAY AFTERNOON, CONTINUES IN WEST

Gloomy Report Comes From Hospital Today

ANOTHER BURGLARY

Howell's Store in South End Was Broken Into on Sunday Night—Police Are Seeking Two Other Youths, Thought to Have Left the City—Petrie in Court

Reports from the hospital at half-past two this afternoon were to the effect that Frank E. O'Leary, who was shot by John Brame yesterday morning, was growing weaker, and that very little hope could be held out for his recovery.

It is learned that requests have gone out from police headquarters here for a lookout for Cambridge Guardsmen and John Leggett, aged 17, in connection with a suspicion of breaking and entering a St. John store.

Another phase of the case today is the bringing to light of another burglary and the fact that the police are trying to locate two more suspects.

When Berry Went to Border, Fleming Was With Him

How Did Berry Get His May Salary? Some Facts, Too, About Mr. Gould and the Matter of Subpoena

The Standard this morning wants to know why it was, if Mr. Carvell did not know the whereabouts of A. R. Gould, that he had a man at Debec Junction to serve a subpoena.

There is another little matter relating to W. H. Berry which may as well be cleared up.

That was on June 3. On June 4 Mr. Berry proceeded to the United States. He has since returned from Boston to Canada, but has refused to come back into the province, even though guaranteed safe conduct by the attorney-general at the request of Mr. Carvell.

Another Inquiry

Pinder's Railway Investigation Has Begun

Some of the Work by Verbal Contract, Some by Day's Work, All Records Not Available and There You Are

Fredericton, N. B., July 7.—The opening of the inquiry into the affairs of the Southamptown Railway this morning gave some indication of the difficulty attending the task of securing an accurate estimate of the actual cost of the road which the presiding commissioner said was his view of the extent of his duty.

When the commissioner held his preliminary meeting in May he pointed out that the figures presented by Mr. Johnston, engineer of the federal railway department, on which the subsidy payments were based, were much greater than the estimates furnished by witnesses in the case of Stewart vs. Pinder.

The evidence this morning showed that verbal contracts on which the subsidy payments were based, were much greater than the estimates furnished by witnesses in the case of Stewart vs. Pinder.

This advertiser uses the newspapers very largely and has secured splendid co-operation from local distributors.

Business is so good that his factory, even in the dull season, is far behind in its orders.

Business insurance through newspaper advertising has made dull times something unknown to this concern.
