TROOPS SOON IN ENTIRE CONTROL

Only One Town in Nanaimo District Unprotected

REFUGEES RESCUED

Soldiers Scour the Hills For People Who Have Fled From Strike Riots in British Columbia, to Shelter of the Forest

(Canadian Press)

Nanaimo, B. C., Aug. 16—Quietest prevailed yesterday in the coal situation on the island. Early in the morning, three companies of Seaforth Highlanders from Vancouver, were landed at Union Bay to take over the situation at Cumberland, where the strike first originated.

About the same time, a force composed of the 8th Regiment regulars and militia, 200 strong, were detailed at Ladysmith, where a mob of strikers and rioters has been in control all week, dynamiting houses, beating strike-breakers, and running them out of town. In Nanaimo, there were stationed 800 regulars, and militia, and the only town in the strike zone not under military protection is South Wellington.

Arrangements are being made to perfect the stations and then every mining town on the island will be in the hands of the militia. In the presence of the troops, the strikers have so far made no lawless demonstrations.

Yesterday a car containing twenty-two refugees—men, women and children—was rescued by the troops on Thursday from armed strikers at Extension, was sent down from the danger zone.

At present one hundred soldiers are scouring the hills around Extension for refugees in the woods, who are afraid to leave the cover of the forest. One woman, only a few days confined, was found in the woods, where she had been twenty-four hours without food.

Manager Cunningham with his wife, who escaped from the strikers into the hills, and who could not be found, have arrived at Alberni on the west coast on an eighteen day journey. The wife is the wife of an old black. These two refugees were so scared that half of them disappeared at sight of the militia and have not yet been found.

It is rumored in town that the strikers last night, made a train a train protected by militia, but the attack was not made.

News came in that the mob at South Wellington had started a raid on Chinese quarters. Police were at once rushed out, but no news of what happened has yet come. The military was stated that a party of strikers was caught trying to dynamite a railway bridge at Cumberland. Previous attacks failed to destroy the bridge, although much damage was done.

More Rioting

Vancouver, Aug. 16—Further rioting took place yesterday afternoon at a district when several strike breakers came into collision with a number of strikers. Missiles of all kinds were freely thrown and shots fired. The military were obliged to take active part in the affairs and eventually order was restored to some extent.

One of the local papers at Nanaimo, which has been threatened with suspension and which suspended publication, issued an editorial this afternoon, made violent attacks on its contemporaries, accusing them of being responsible for the strike and subsequent rioting.

As to who gave the orders calling on the militia, there is much discussion. Frank Sheppard, the member for the district, denies all knowledge of the matter while the local magistrates disclaim any responsibility.

WINCE THE THIRTY SECOND HEADS RUBBER COMPANY

Beulah, Aug. 16—Prince Henry XXXII of the Junior branch of the Reuss family, as just founded a limited liability company to manage rubber plantations that he recently purchased in German East Africa. The company is presided over by the prince, and another member of the board is the prince's teacher in commercial affairs, Herr Elffe of Hamburg. Apparently the plantation is not giving every satisfaction, as it is now decided to engage in the cultivation of other products besides rubber. Last year as much as \$25,000 worth of rubber was collected, but there was some difficulty in disposing of it.

Prince Henry of Reuss is one of the younger princes of this name. He was engaged in business, but is this his first serious venture. He is now thirty years old.

"Loyal" Unionists Try To Involve King George In Revolutionary Act

Seek to Press Him to Take Drastic Step Against Home Rule Bill

Condemned as a Mischievous Plot—Canada to Have Visit From Brilliant Young Postmaster-General—Important Campaign Follows Medical Congress

(Times' Special Cable)

London, Aug. 16—Movement has arisen among the Unionists, but unacted by the leader of the party, to put pressure on the king to secure another verdict from home rule by dismissing the ministry and dissolving parliament on the day of the bill. Two peers are getting a petition to the king. They rely on Melbourne in 1884.

That this movement has reached some importance may be judged from the fact that it is openly discussed by authorities as varied as the Spectator and Mr. Spender, editor of the Westminster Gazette.

Even the Spectator, a pronounced Unionist organ, denounces the plan as a mischievous movement to make the king commit a revolutionary act. Mr. Spender says: "This talk of royal intervention is monstrous. It becomes evident that the new movement on coup d'etat would split the Tory party as effectively as the previous movement in 1910, while it would unite the Liberal party as one man to resist it."

Hon. Mr. Samuel's Visit Various publicists here are asserting that the Postmaster-General's proposed visit to Canada is connected with great schemes of cable reform between the Dominion and England. This is not correct. His primary purpose is to carry out a resolution passed two years ago by the imperial conference and to discuss matters with the Canadian post-officials and the Canadian post-officials.

He traces to these diseases from twenty-five to thirty per cent of the operations in the women's hospital, a large proportion of still births and describes them as reduced the amount of street traffic. Application of Emperor's Words Brings Four Months Term—Socialist Leader's Estate \$150,000—Monte Carlo at Baden-Baden

Berlin, Aug. 16—Whether or not it is high treason to turn a bust of the German emperor with his face to the wall has been settled by the sentencing of Herr Schatz of Saargrund to four months in prison, and yet the luckless Schatz may plead that he had a certain reason for his act.

It may be remembered that the people of Alsace have recently been giving his mangled face at them, metaphorically speaking, and that Alsace might find itself incorporated with Prussia, unless it learned to behave itself. Prussians themselves, by the way, resented the nomination, and has the backing of many prominent members of the party, but he has little chance of securing it.
