shelled by Federal battery.

Attack by same force on Nashville considhis and a happier langulas and a h Some the money pit; between the upper and low-

supposed platform 98 feet. This was about dark. They quit the work until commencing again they found the with water, as high as tide level. I key then tried bailing, and after wards tumping, which was all to no purpose. After which was all to no purpose and and day until Friday morning, when the under the freasure, which was aveventeen feet long, for some time, but unforting I lost is should have continuence on in this strange of feeling, of his temper imbittered by the disappointments of the world, with the small tollows him in his strange of feeling of his temper imbittered by the disappointments of the world, with the small to no Chattanoga, to cover movements on Rome. Georgia.

Gen. Magruder is relieved of his command. He is reported going to distant and important to care the fell with the she sed; there are small to lows in the she that continuence on in this strange of feeling, of his temper imbittered by the disappointments of the world, with the small the continuence of the world, with the small the care of the pasture with unshall allows to the continuence of the con ful. Matters stood so until 1849, where a ey pit, which was seventeen feet long, four ant command, few persons in Truro, hearing Lynds tell the feet high, and three feet wide, becoming story, got up a company. The y got down 86 chocked with clay, we sent two men down Another Fed free, when the water drove them out. The year to clear it out. After they had got about then bored this part of the work I can sperk thalf way through they heard a tremendous of with more certainty than any previous, as I took part in it it personally, and worked to the more pit, and barely escaped to the auger. We bored five holes, in the lowed them into the west pit, and filled it.

ARTEMUS WARD.

If you mean getting hithed, I'M IN!"

Mossider that ere enuming on: I consider that ere enuming on: I consider that ere enuming on the part of the work I can sperk that when life and sorrow end together, the parsons's and was made 1 that very on the parsons's and was made 1 that very on the parsons's force is reported to have crossed.

ARTEMUS WARD.

ARTEMUS WARD. Having lost it we had only one left, which you. The baling continued until three o'had, instead of a valve, a ball it side with a clock, p. m. of Saturday, when, on clearing pin across the bottom to keep! he hall from the tunnel egain, another crash was heard dropping out. That one woo id not admit of the tunnel egain, another crash was heard through an of the tunnel egain, another crash was beard the upper platform falling, and immediately that we should not have yot another valve the bottom of the money pit which we supposed to be sludger, but people who are penny wise and 102 feet.

FIRE IN Boston and Loss or Life—

tants have taken refuge in the woods.

Gen. Curtis is reported to have cut to pielife, at length fell sick, and was visited by a day evening last which was attended by the kind hearted lady from a neighboring parish. loss of life of ore fireman and serious injuries.

Iron clad gunboat approaching completion at Richmond.

Fort Darling greatly strengthened—Batter
coin passing into it. It would seem strange the upper platform falling, and immediately the bottom of the money pit fell to about sludger, but people who are penny wise and 102 feet. we had. . It was a long pod with a valve at In the mean time a stick of oak timber of or three but cow.ld not prevail on them to do see. The second hole we bored struck the platform which the eld diggers teld us about ——precisely at a he depth they told us there had struck it with the crowbar, 98 feet. Immediately affect the proved to be sprace, six inches thick. After proved to be sprace, six inches thick. After foot and struck wood again, which was bak, four inches the struck wood again, which was bak, four inches the small pieces who cheek that the eager would go that the auger would go that the provided the money pit, commencation, the money pit, commencation at the worthy clergy and the bediens about the through it there was only about thirty feet of the president submits a bill to Congress to Donath attack McClellan.

The President submits a bill to Congress the beef-tea almost undiminished, and to hear it denounced by the worthy clergy and the the the the two that they would attack McClellan.

The President submits a bill to Congress the best until there was only about thirty feet of the until there was only about thirty feet of the until there was only about thirty feet of the president submits a bill to Congress the beef-tea almost undiminished, and to hear it denounced by the worthy clergy and the tworthy clergy and the bottom, fell in, plank after ward, w and from the fact that the auger would go this year.— not however until we proved declining endorsing it, and disagreeing with through by simp by turning it, then eight in that the water could be pumped out in two the President that its non-acceptance by in the hush of midnight. The myriad quite ches oak, then for hours.

States will prolang the war. inches oak, six incres spruce, and then We talk of letting a job of the whole An immense war meeting
