THE COLPITTS RE-UNION.

A gathering of this family will be held on Wednesday, August 27th, 1902.

The farm originally settled by Ralph Colpitts, now owned by the heirs of the late Havelock Colpitts, has been chosen as the place of meet-ing. This is situated on Pollett River, Glen. It is hoped that many who were not able to be present at the previous re-union will be able to attend this year. As far as possible all should try to be on the ground before dinner. Those who live within a day's journey are requested to bring their lunch baskets, with a few extra bites for those unfortunates who do not live so

During the afternoon matters of family interest will be discussed. Since the last meeting letters from members of the family in England have been received, and these will be read; also, some old letters written to Robert Colpitts from England soon after his emigration. It is hoped that Dr. R. C. Weldon and Hon. H. R. They intend to sell the remainder of their property and move to British Columbia in October. Their neighbors are very sorry to lose them.

Owing to the late rains farmers are getting on very slowly in curing their hay, which is an excellent crop on the highlands.

avail themselves of this opportunity to become better acquainted with each other, and that a pleasant day may be enjoyed by all. It is hoped also that the proper spelling and pronunciation of the family name may

THE FARM.

The Growing Popularity of the Farmers' Institute,

By F. W. Hodson, Dominion Live Stock Commissioner.

In view of the great success of the Farmers' Institute as a means of education in Ontario, the dominion department of agriculture has endeavored to co-operate with the various local departments in establishing and imother provinces, and the best available ressed into service not only in their By sending able and observant men from one province to another, in this way we hope to get together a thorers, familiar with the agricultural situation and requirements in all parts

of Canada. Prof. E. J. McMillan of Charlotte town, P. E. I., superintendent of Farsketch of the work already accom-plished in Prince Edward Island. which may be of interest and benefit to those interested in agricultural edu

cation in other provinces. According "The organization of Farmers' Insti-tutes in Prince Edward Island was first idertaken in June, 1901. At that time

the Hon. Benjamin Rogers, commissioner of agriculture, assisted by the writer and two experienced institute agriculture at Ottawa, held meetings of farmers in the different sections of the province, for the purpose of discussing the advantages of the institute system. As a result of these meetings organization of twenty institutes was completed before the end of the

Prince Edward Island is twofold in its aims. It seeks to combine the educawith the facilities for dealing in live stock afforded by the old Agricultural cieties plan. Each organization is a Farmers' Institute and Agricultura Society combined. A government grant of \$50 is paid annually to each socienrolled, and collects \$40 per year in ecember 31st, 1901, was 1,624, and the amount subscribed in fees was \$311.50. The receipts of the institutes from all sources amounted to nearly \$2,000. chase of pure bred stock and in de-fraying the expenses of lecturers. Thirty-three meetings, chiefly for pur-poses of organization, were held durthe present year. At the beginning of the present year a regular series of in-stitute meetings was arranged and car-ried out successfully. Several speak-ers were employed and various agricul-tural topics were tural topics were brought up for dis-cussion, chief among which were Dairying, Hog-raising and Chickenfattening. As all of these are live in-dustries at present, the interest mani-fested in the meetings was great. The tage of every opportunity to impart lessons of practical value. Already the influence of this public discussion of agricultural questions is shown in an increased interest in everything which makes for the advancement of the calling. The demand for pure bred stock for breeding purposes, which has more than doubled during the past

stitutes. It may also be shown that an advancement has taken place along other lines. The people realize this

other lines. The people realize this and are anxious that more educational meetings should be held."

During the month of July a series of midsummer lectures were given before the institutes by Prof. H. H. Dean and D. Drumond, representing the dominion department of agricul-ture, besides several local speakers. With one or two exceptions, where the advertising failed, they were a grand ess. The farmers turned out well and manifested a deep interest in the neetings. Twenty-seven institutes evening meeting held at each. average attendance at the afternoon in some instances there were over chief feature of these meetings, were ery well received. The average atendance at the evening meetings was fully 100: In these, too, a marked interest was taken, and free discussion indulged in, until in many instances it was 11 o'clock before the meeting could be brought to a close. Prof. Dean, as was expected, has done excellent work. It seems to me that we were very fortunate in securing his services just at this time, as the dairyng business has not been growing nuch of late, and I feel sure that we may have a revival of the industry wherever he has gone. Mr. Drumfaction. The people were very favorably impressed with his work in live stock and in other lines. We should like to have both gentlemen again. The impressions created by these eetings have been very favorable, and I am confident that the institutes here have been much strengthened as sent year will witness a considerable growth in the institute system is already assured. Six new organizations
