He denied it flatig. It is generally believed, however, that the report from Montreal has a substratum of truth. The position of affairs is believed to be that negotiations have advanced so far as to lead to the invitation of Mr. Mackenzie to visit London with a view to discussing on the spot with the Grand Trunk directors the question of transfer of Canadian Northern property and franchise. It seems to be conceded by well informed interests on transportation matters that there is not room for some years to come for three trans-continental lines in Candada, and if a charter were given to the Grand Trunk it would effectually block the completion of the Canadian Northada, and if a charter were given to the Grand Trunk it would effectually block the completion of the Canadian Northern, while the Grand Trunk itself would not be able to accomplish anything for years by having to go into territory further north, from which rodequate returns can be secured for a long time. This fact evidently impressed itself upon both the Canadian Northern and the Grand Trunk people, hence their coming together.

The health of the guest of the evening was tendered with the greatest enthusiasm.

Mr. Monk, who was presented with a splendid portrait of himself in oil, in reply made a patriotic speech, in which he advocated a policy for all the Canadians. He urged greater protection to Canadian industries and spoke for a truly national policy which would protect Canadian markets. He was aware, Mr. Monk said, that there had been strong tendencies in the west for Shaw, the master, and A. McLeod, the been strong tendencies in the west for free trade, but he believed that that great country would soon declare for a national policy. (Cheers).

VENEZUELA SITUATION.

Substantial Guarantee.

WASHINGTON, Jan. 29.-The Venwashington, lan. 25.—The Venezuelan situation tonight is still very uncertain, and officials are awaiting with some concern the developments of the next forty-eight hours. No final answer has come to Minister Bowen's proposition offering a guaranty, as demanded by the allies as a preliminary to the raising of the blockade. The contention of the three allies that they shall be given preferential treasument. creditor nations is the point on which ister Bowen is insistent that the allies shall not have preferential treatment and in all his conferences with the re-presentatives of the European governments here he has made his position yery clear. It is known that he has declined to modify his demands in this respect. Pressure along certain influential lines has been brought to bear on the allies to show the justice of Mr. Bowen's contention. The rejection of his proposition for the treatment of all the creditors alike, it is believed here. HALIFAX, Jan. 29.—Rev. W. E. Would result in throwing the case to The Hague tribunal, before which body all the nations having claims against Venezuela work. Venezuela would be placed on an equal footing. It is known that the allies done, as consideration of the claims by that body would entail much de-lay in their settlement, and there are other features, which make it desir-able to the allies that the claims be able to the allies that the claims be settled outside of that body. One of them is that if they come before The Hague, Venezuela would have the right to set up counter claims as an offset to those presented by the allies. These, it is said, might reduce considerably the amount of money to be paid by Venezuela.

In a late hour tonight the allies.

Up to a late hour tonight the allies' Up to a late hour tonight the allies representatives have received no answers from their governments. It is learned that on the second day after his arrival here Minister Bowen informed the French diplomatic representations.

LONDON, Jan. 29 .- Venezuela's anwer to the powers' latest communication (the joint note refusing to place all claims on an equality with those of the co-operating powers) is expected to arrive here tomorrow. If Mr. Bowen can agree to give praference to the claims of Great Britain, Germany and Italy, the blockade is likely to be raised, for so far as is known, this is the only outstanding vital point. Should Venezuela demur or complicasome of the other powers, the negoti-ations may be indefinitely prolonged. Authoritative opinion here differs re-

garding the outcome.

The German officials adhere to the belief that when President Castro sees belief that when President Castro sees that all the three powers are so compreference he will agree to it. The committal attitude, not altogether without a pessimistic trend. All, how-ever, unite in declaring that after all the expense and trouble of the block-ade their claims would not be equitably treated if they were put on the same basis as those of nations who have not taken steps to recover their debts or re-establish their prestige in
