NOTE.—The amount of £302 10s 0d., debited as having been received from the London Missionary Committee, in 1840, never came into the hands of the Treasurer, but was paid to meet connexional demands against us in England for debts incurred by the Rev. William Lord before the dissolution of the Union. The real balance in the Treasurer's hands is therefore £453 18s. 7½d. The former amount is however still due to the Society.
