

stating that, from want of time to give to his duties as a Director, he was compelled to resign from the Board. Mr. Champion has been a valued member of the Board since 1888, and his resignation was accepted with much regret. As the annual meeting was so near, the Board did not elect anyone in Mr. Champion's place.

The Directors who retire at the annual meeting are, therefore, Messrs. Maulson, Carruthers, Stobart and Galt; and the election of their successors, and of someone in succession to Mr. Champion, will be for a term of three years. All retiring members of the Board are eligible for re-election.

The thanks of the Board are due to Mr. Aikins, Q. C., for drafting the amendments to the Act of Incorporation, and to him and Mr. Isaac Campbell, Q. C., M. P. P., for attending to the passage of the amendments through the Legislature.

The number of patients treated in the Hospital during the year was 982, as against 1020 in 1889. The aggregate number of days of treatment, however, exceeded those of 1889 by 2530. It may be interesting to note that of these 982 patients, 612 came from the City, 294 from various other places on the Province, 30 from the N. W. Territories and British Columbia, and the remaining 46 from Ontario and the United States. The number of out-patients treated was 660.

The usual financial statements are appended, viz :

No. 1. A general cash statement, showing the receipts during the year from all sources, and showing how the money received has been disposed of.

No. 2. The working account for the carrying on of the Hospital, showing the amounts paid under the various items that make up the annual expenditure.

The accounts have been duly audited, and the report of the auditors is printed in the appendix.

In the appendix will be found a list of all who have given cash subscriptions and donations during the year, and lists are given of the several Municipalities who have contributed to the support of the Hospital and of the amounts contributed by each, as well as of the Churches in which collections were taken up on behalf of the Hospital, and of the amounts collected. The amount received from Municipalities
