

BEDRIDDEN WITH RHEUMATISM

Felt That He Would Never Walk Again "FRUIT-A-TIVES" Brought Relief.

MR. LORENZO LEDUC

3 Ottawa St., Hull, P.Q. "Fruit-a-tives" is certainly a wonder. For a year, I suffered with Rheumatism; being forced to stay in bed for five months. I tried all kinds of medicine but without getting better; and thought I would never be able to walk again.

"One day while lying in bed, I read about 'Fruit-a-tives' the great fruit medicine; and it seemed just what I needed, so I decided to try it.

The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me.

I have every confidence in 'Fruit-a-tives' and strongly recommend them to every sufferer from Rheumatism".

LORENZO LEDUC. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

FREE MEN ARE FOR FARM WORK.

The Canada Food Board is preparing plans for the mobilization of labor for spring seeding operations. Men familiar with handling horses will be specially needed and it is essential that they be secured to work on the land. For this reason employers of such labor or, in urban centres, will be advised to consider the adoption of co-operation methods of delivery in order to free the men capable of driving horses and especially those with farm experience.

It is estimated by W. P. Lowell, of Calais, who carries on extensive lumbering in New Brunswick, that the cut in the province this year will be between 36 and 40 per cent less than last year, chiefly because of shortage of efficient labor.

CONSERVING THE AGUE.

To a native of a certain section of the Southwest that is well known for its malarial tendencies a St. Louis traveling

men said:—"I notice that there is a great deal of arge hereabout." "Yes," was the laconic response. "That's a great drawback. It unfits a man entirely for work, doesn't it?" "Generally it does," said the other. "Still, here on my farm, when my man John has a right hard fit of the shakes we fastens the churn-dasher to him and, stranger, he brings the butter inside of fifteen minutes."—New York Times.

CANARD.

Rev. A. J. Prosser has a large Bureau Bible Class which meets regularly at Lower Canard and great interest is taken in the study of the scripture lessons.

Messrs. Jno. L. Eaton and Stanley Jackson left about a fortnight ago for Prince Edw. Island to purchase horses there. They got well snowed up while there and were unable to get around at all, or even to get back home.

At a social held by the Bureau Class a fortnight ago Dr. Perry Bowles' Eaton was presented with a purse of \$25.00 as a token of esteem of his friends here for what he is doing in the Empire's cause and incidentally as a wedding present.

Dr. Eaton has had much experience in hospital work the past two years and married an English lady who is giving her services in the work of alliviating suffering in the British hospitals. Dr. Eaton returned alone to Canada as transportation of even one extra person is sometimes difficult to obtain. He has decided to enlist in the work of the Medical Corps in Canada and has had his ability and services recognized by being appointed surgeon in one of the recently established hospitals at Halifax and is now engaged at his work there. His loyalty to his own country and desire to do his best in the Empire's service is recognized by his friends here.

Those who attended services in the Baptist Church on Sunday morning March 3rd, were delighted with the address given by Rev. A. W. West of Kentville.

GENERAL AIR-RAID ON TEUTON CITIES.

Cologne, Mannheim, Metz and Bruges Heavily Bombarded—Forty-Five Enemy Machines Shot Down and 22 Disabled.

LONDON, March. 25—British aviators have bombarded the railway stations at Cologne, as well as various other important cities in Germany, the official statement on aerial operations announces tonight.

The text of the statement reads:—

"During the night one of the enemy's large bombing machines landed behind our lines. Following a successful daylight raid on Mannheim, other objectives in Germany were attacked during the night.

"Half a ton of bombs were dropped on the railway stations at Cologne, where a fire was started. Over a ton of bombs were distributed between the Luxemburg railway station, where a fire broke out, and the Courcelles railway east of Metz. Two tons of bombs were dropped on the Metz railway station.

"The fight was the most severe so far experienced. Our airplanes shot down 45 enemy machines and drove down 22 out of control. Two other hostile machines were shot down by our anti-aircraft guns. Ten of our machines are missing.

Hand made, fancy bread in Canada went off the market on March 15, under the Canada Food Board's new regulations. Standard war flour, meaning flour about two per cent coarser than ordinary, may only be used for bread from henceforth.

Women of Canada—the kitchen is your fort. Food will win or lose the war.

Lord Rhondda, British Food Controller, says the food situation for the Allies will be most difficult during the next two months.

Little savings in the preparation of meals, all count for your country. Kill Kaiserism in the kitchen.

Keep Rabbits.

One pair of rabbits in one year would increase to 2484 in twelve months at the rate of six young ones per month, which is a very conservative rate, some young families numbering as high as thirteen. This is also allowing for the elimination of surplus male bunnies as soon as they are big enough to eat. Rabbits can live on hay and get along very cheaply. They provide five pounds of meat when full grown.

Chickens should be hatched early this year so that they will mature on the fresh green stuffs of the summer season. Store feed is found to be high this year.

Sap's runnin'—In South Western Ontario, Peter McArthur of Ekfried tapped his trees early in March. Season's late this year though—old-fashioned winter. Get out all the buckets, old and new and make the most of your time. There's a good market for every pound of sugar and gallon of syrup.

CANADA FOOD BOARD SAYS:

We have reason to believe that maple sugar and maple syrup production this year will be somewhat in the neighborhood of double that of recent years. In 1916 there were approximately 55,000 maple sugar producers in Canada, when the total production amounted to 19,600,000 pounds of sugar and 2,000,000 gallons of syrup. So that, if the promise of doubled production this year is sustained, Eastern Canada should produce about 40,000,000 pounds of sugar and 4,000,000 gallons of syrup. In 1911 the price of maple sugar to the farmer ranged from 5 to 10 cents per pound, according to quality and the district's availability to the market. This year prices are

Economize By Using

PURITY FLOUR

Government Standard For all Your Baking

MANUFACTURED BY Western Canada Flour Mills Co. Limited

quoted around 16 and 18 cents and even higher for the better grades. Compared with 1911 in increased crop of sugar this year at this year's prices should be worth about 6,000,000 as against \$800,000, an increase of over 600 per cent. This is on sugar alone. Syrup is quoted at \$1.40 to \$1.65 per gallon and 4,000,000 gallons will bring another \$5,000,000 so that the total crop this year, if the hopes of those interested bear fruit, will total over \$10,000,000 and most of this money will accrue to the farmers as the result of three week's effort before regular farm operations have commenced. If due care were taken to prevent waste in the sugar bush, arising from overflowing of buckets, it is estimated that \$2,000,000 worth of sugar and syrup extra would be saved. All this money would be extra over and above the revenue accrued to the farmer from regular field crops, livestock and other sources involving capital expenditure as well as labour and management. Every tree will produce from 30 cents to \$1.00 worth of sugar and 5,000 trees can be handled almost as well as 500 if energetic preparations are made. The farmer can make \$200 worth of syrup and sugar in the brief period of three weeks of early spring when, otherwise, he would be doing little or nothing of revenue bringing value. The season has already commenced in South Western Ontario.

The United States is a great market for sugar and maple syrup and Great Britain and France are great prospective markets. Production in the United States has fallen off greatly since the early days. In 1860, 40,000,000 pounds of maple sugar and 1,500,000 gallons of syrup were produced, and in 1910 only 14,000,000 lbs. which in 1910 produced 7,700,000 crop, the largest being Vermont of sugar and 4,000,000 gallons of syrup. Twenty-two states of the Union contribute to the and Pennsylvania each 400,000 000 pounds of sugar; New York 3,100,000 pounds; Pennsylvania, 1,200,000 pounds; New Hampshire, 1,560,000 pounds. The largest producer of syrup was Ohio which produced 1,200,000 gallons; New York, 1,000,000 gallons and Vermont gallons.

MOTHERS PRAISE BABY'S OWN TABLETS.

Every mother wishes her little ones to be well—thousands of mothers have learned the secret of keeping them well. They have found by experience that an occasional dose of Baby's Own Tablets will prevent sickness, or if sickness comes on suddenly the Tablets will promptly give relief. These mothers have nothing but praise for the Tablets. Among them is Mrs. Gustave Lord, St. Peter's, Que., who says:—"I have been using Baby's Own Tablets for my little ones for a number of years and have found

them a perfect medicine. They regulate the bowels; stop vomiting; in fact they are good for all the little ailments of childhood." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

EASTER VESPER SERVICE.

Upper Canard Baptist Church, Sunday Evening, March 31st, 1918. 7.30 P. M.

Male Quartette. Selected Chorus—The Lord is Risen Indeed—Stephenson

Organ (a) Marche Pentecostale Lemmens

(b) Pestludium in D Minor Frysinger.

God Save the King.

SUDDEN DEATH OF BRIDGE-TOWN PASTOR.

HALIFAX, N. S., March 17—Rev. F. C. Simpson, minister of the Presbyterian church, Bridgetown, died this morning as he was preparing for the service. Mr. Simpson had no premonition of illness, but some time ago his physician had told him he was threatened with cerebral trouble. His wife who survives, is a sister of Wm. Duff, member elect of the house of commons from Lunenburg and of the wife of Rev. J. A. McGlashen of Dartmouth.

Mr. Simpson came to Nova Scotia from Hull. He was then a member of Methodist church but he entered the Presbyterian college, Halifax, was admitted to that church and became one of its ministers. Two children survive, one a Lieutenant in the depot battalion at Halifax, who has been overseas and the other a daughter, on the staff of the immigration department at Halifax.

THE NASAL SYSTEM.

While mother was arranging the pantry shelves, Marjory handed her the spice boxes, mentioning each spice by name. Presently she said: "Mamma, I can read." "Can you, dear?" "Yes, mamma," said Marjory, "but I don't read like you. I read by the smell."

\$\$\$

Once Bitten—Twice Shy.

Advertising may make a poor article sell for a while, but the most persistent advertising would not induce you to make a second purchase of a thing that turned out to be fraudulent, and the profit on the first sale would never pay for the advertising.

Do you not think the advertisers know this? They fully realize that the very first essential of success is to have something worthy, something that people want and will keep on buying.

If you see a thing advertised regularly week after week, year after year, it is safe to conclude that it possesses actual merit and is well worth its cost.
