LAND PLASTER.

Land Plaster that is white and ground fine is
the only Land Plaster to depend upon as a fer-
tilizer—if it has a black or red tinge, and is a
heavy ground, beware of it. The Plaster I sell is
white from the sea, and ground fine. When
used in the stable it will make a ton of manure
equal to the highest priced Super-Phosphates.
This has been proved beyond any question of
doubt by the experimental agriculturalists of
to-day, who use only fine ground whitt—that
comes direct from the sea. Send for circulars.
