

of the Commission and Mr. T. Owen Cook of the Department of the Interior has been appointed Secretary.

In relation to their investigations claims to participate in the grant to be made to half-breed of the Territories on the report of the Commission will probably be made by persons who are the recipients of annuity monies or other grants to Indians under Treaty with the Government and not a view to identifying such persons it is desirable that the Indian Agents should be instructed to attend the meetings of the Commission when sitting at any point within their respective Districts.
