### THERE IS GREAT DANGER IN CATARRH

If Left to Run Its Course Uncheck ed, It Often Causes Death.

Detectives Williams, of the Wabash Railway, and Detective Cobourn, of the Grand Trunk, were in the city yesterday and to-day investigating the breaking into of the ticket office of the Grand Trunk depot recently. Nothing has been missed at all, but the burglary is being investigated.

Catarrh scatters its poisons to account the entire system. The stomach and lungs are affected by the droppings that fall into the throat and are swallowed during the cept. Dyspepsia, inflammation of the stomach, bronchitis and consumption are the results. The blood also becomes contaminated and carries the noisons to all parts of the system. comes contaminated and carries the poisons to all parts of the system. Frequently in the more advanced stages, the bones of the head become decayed and the air passages are a putrid mass and create a sterch so foul and offensive as to be unbearable. The expression, "rotten with catarrh," is not overdrawn or exaggerated.

Stuart's Catarrh Tablets strike at the root of this terrible, odious disease and creaticate it from the system. They are a constitutional remedy that cleanses the system thoroughly of all poisons and purifies the blood. Under their influence the head becomes clear, the discharges

thoroughly expelled from the system.

A Cincinnati man says: "I suffered the misery and humiliation of catarrh for twelve years. My case became so aggravated that it seriously interfered with all my business relations. The disease became so offensive that I would not venture into any one's presence unless it were absolutely necessary. I tried every remedy that I could ge thold of. Some helped me temporarily, but as soon as I ceased taking them, I would relapse mto the old condition. "Finally a friend told me of Stuart's Catarrh Tablets, and insisted that I try them. I had about despaired of ever finding help, but bought a box anyway. I began to notice the improvement within twenty-four hours after I began to taking them. Before the first box. twenty-four hours after I began taking them. Before the first box was gone I felt like another man. I kept up the treatment till I had taken three boxes and was entirely cured. I have never had a recurrence of the trouble from that day to this. My head is clear and well and none of the offensive symptoms of the disease ever troubled me. It has been two years since I at honed taken the control of the stronged taken.
