

- Nasal bones, 132
 Nasal cavities, 95
 Nearsightedness, 223
 Nerve, cells, 189-190; centers, 200-201; current, 199; fibers, 187-188, 190-191; tissue, 189
 Nerves, auditory, 233; cranial, 194-196; in the teeth, 45; olfactory, 231; optic, 221; spinal, 198
 Nervous system, anatomy of, 187-198; cerebro-spinal, 187; effects of alcohol on, 212-216; hygiene of, 208-216; physiology of, 199-207; sympathetic, 187-188
 Nicotine, a poison in tobacco, 61, 92-93
 Nitrogen, a food element, 9; and the tissues, 14
 Nitrogenous foods, 13-14, 15-22
 Non-nitrogenous foods, 14, 23-31
 Nose, bleeding from, 269-270; center of the sense of smell, 230; foreign bodies in, 275-276
 Nostrils, structure of, 230
 Nourishment, 65-66
 Nucleus, of a cell, 2
 Nurse, emergency, 283-285

 OATMEAL, as a food, 21
 Occipital bone, 132
 Occipito-frontalis muscle, 151
 Esophagus, 41, 50
 Oil glands, of the eye, 218; of the hair, see Sebaceous
 Olfactory nerve, 231
 Optic nerve, 221
 Oxidation, 8-10, 14, 39, 180-181
 Oxygen, and animal heat, 180; and carbon dioxide, 75; and respiration, 94; and the blood, 73-74; and the food, 9; supports life, 108-109; ventilation and, 111

 PAIN, relief of, 277-278; sensation of, 242-243
 Palate, soft, 49; hard, 49
 Pancreas, function of, 58
 Pancreatic juice, 53, 58
 Papilla, of hair, 170; of tongue, 226-227
 Parietal bones, 132
 Patella, 138
 Pectoralis major muscle, 152
 Pelvis, 136-137
 Pepsin, 53
 Pericardium, 79
 Periosteum, 122
 Peritoneum, 41
 Perspiration, 166-168; checking of, 168; conditions affecting, 167; object of, 167-168
 Pharynx, 49, 50
 Physiology, objects in studying, 253
 Pivot joints, 140
 Plants, and the food elements, 9; cells of, 32; how built up, 32, how frost affects, 32, poisonous, 260
 Plasma, 71
 Pleura, 100
 Pleural cavity, 100
 Pneumonia, 270
 Poisonous plants, 280
 Poisons, antidotes for, 278-279; definition of, 10
 Pores of the skin, 165-166, 173
 Portal vein, 65
 Position, importance of an erect, 126-129
 Potash, 6, 13
 Pressure, sense of, 241-242
 Process, in cell division, 4
 Proteids, 6, 15-16; absorption of, 64; digestion of, 53-54; 57, 58
 Protoplasm, 2
 Ptyalin, in saliva, 48
 Pulse, 84-85
 Pupil of the eye, 220
 Putrefaction, 33
 Pyloric opening of the stomach, 51-52

 RADIAL, of the forearm, 136
 Reflex action, acquired, 206-207; and the spinal cord, 204-207; course of nerve current in, 205-206; importance of, 206
 Refrigerator, importance of care of, 19
 Repair of the body, 8; importance of nitrogen to, 14; proteids and, 15
 Respiration, 94-107; controlled by respiratory center, 202; restoration of, in drowning, 271-273
