

The Canadian Steel & Wire Company, Ltd.

HAMILTON, ONTARIO

WINNIPEG, MANITOBA

MANUFACTURERS OF "CANADIAN" FARM FENCES,
"AMERICAN" FARM FENCES, LAWN FENCING,
"AMERICAN" STEEL FENCE POSTS, BARBED WIRE,
COILED WIRE, GALVANIZED STAPLES, GATES, ETC.

There is a definite reason why our commodities are so generally used from one end of Canada to the other, and have such a wonderful hold on the users. They actually possess qualities not usually found in other makes. **FULL GAUGE WIRES** cost no more to erect than lighter gauges; **HEAVY GALVANIZING** that means years of satisfactory service. **FULL SIZE ROLLS. FULL WEIGHT.**

Our competitors cannot quite understand the intense **LOYALTY** of our **CUSTOMERS**. They are naturally interested, and there is a strong tendency to try and reach our high standard of quality. Of course our commodities have reached their present state of development only by years of experimenting and testing, resulting in the best in fencing that the world can produce and maximum service to you from every rod of **CANADIAN STEEL & WIRE CO'S FENCES** used on your farm.
