The Most Profitable Method

Catch the Early
Markets by Using

WHAT is your time worth?

Rounding up your feed
materials in the old way takes
time; so does figuring of rations and
mixing. Feeds on the farm vary in
quantity and quality. The ration is
liable to be too rich—or skimmed.
There is loss both ways, either in loss
of feed at high prices, or loss of bacon
due to imperfect feeding. In short,
ordinary feeding methods cannot be
accurate and economical.

Monarch Hog Feed

is calculated with accuracy by
experts who have handled ex-
actly the same hog feeding prob-
lems as you have. They know
to a certainty just what Cana-
dian hogs require. The special
facilities that we have at our mills and
you have not, insure Monarch Feeds
always being properly balanced and
thoroughly mixed. With these advan-
tages we have produced a feed that will
not only finish your hogs quicker and
in better condition for market, but it
will mean more and better bacon—the
good, firm, solid quality that gets the

attractive prices for you. It means least
cost per pound gain. Guaranteed anal-
ysis: protein, 15%; fat, 4%.

Monarch Hog Feed has all the feed-
ing advantages of corn products, shorts
and digestive tankage. Owing to the
splendid balance in this ration, these
feeds are easily digested. Hogs scramble
for this highly palatable feed. It gives
size, vigor and stamina. It lowers your
cost of production, and at the same
time gets you the quality prices.

Order a ton from your dealer. You
can depend upon deliveries. If your
dealer cannot supply you, write us
direct, giving dealer's name.

MONARCH DAIRY FEED

has guaranteed analysis of 20%
protein and 4% fat. It is a prop-
erly mixed combination of Oil
Cake Meal and Cotton-seed Meal
with the bulky feeds, bran and
corn meal. Though very rich, en-
suring splendid results, it can be
fed alone.

SAMPSON FEED

This general purposes feed is
somewhat similar to Monarch Hog
Feed, except that oil cake meal is
used instead of digester tankage;
it gives results for both cattle and
hogs. Guaranteed analysis: 10%
protein and 4% fat.

Large Black Pigs

A Scotch breeder writes as follows:
"The Large Black Breed of pigs is not
subject to degeneration or atavism such as
is common to other breeds. They are also
very prolific and come early to maturity,
while their conformation is just what
Bacon Curers and Pork Purveyors
require." We have young stock of this
great breed for sale. Also very choice
young bulls of English Dual-Purpose
Shorthorns.
