CULVERT

To make better roads, reduce taxes and cut down statute labor, use Pedlar's Nestable Culvert. In strong, corrugated, non-rusting metal, you build any length needed at the job, excavate just enough to fit it in place, and tamp back the earth. Your culvert is made for years to come. Won't cave in, frost-proof, better than brick, cement or wood. Handy, quick and sure. So good you'll always use it. Holds up traction engines easily. Learn everything about it in our free book. Write for sample free.

The above two pictures tell the whole story of installing a frost-proof, time-proof Pedlar Nestable Culvert.

BOYS FOR FARM HELP The managers of Dr. Barnardo's Homes invite applications from farmers, or others, for the boys who are arriving periodically from England to be placed in this country. The young immigrants are mostly between 11 and 13 years of age; all will have passed through a period of training in Dr. Barnardo's English Institutions, and will have been carefully selected with a view to their moral and physical suitability for Canadian life. Full particulars as to the terms and conditions upon which the boys are placed may be obtained upon application to Mr. Alfred B. Owen, Agent Dr. Barnardo's Homes, 60-62 Peter St., Toronto.
