The effect of Electricity upon the weak, debilitated man is the same as rain upon the parched field in summer. He may be debilitated from varicocele, losses, impotency; may have confusion of ideas; fear to act and decide; gloomy forebodings, timid and fretful; avoid friends and company; without confidence in himself to face the slightest responsibility, and let him properly apply Electricity for but a few hours and all these symptoms vanish. A few weeks to a couple of months' use of this treatment banish them forever, and make strong, confident, manly men out of the puniest weaklings. For nearly forty years I have treated and restored weak men through my world-famed invention, and am still

doing so with greater success than ever. In fact, I do not expect to fail in any case of this kind, and therefore, as most men are more or less sceptical, I will continue to give my Herculex

Dr. Sanden Electric Belt Free Until Cured.

Not one cent is to be paid me in advance or on deposit. Call or write and get the belt, and use, say, for sixty days, and if cured pay me price of belt only-most

cases low as \$4; if not cured return the belt and the deal is ended. But I know what the belt will do, and will take the risk of my pay when you are cured. I also give my belts on same terms in Rheumatism, Lame Back, Stomach, Kidney and Liver Complaints, etc.

As the originator and founder of the electric belt system of treatment, my forty years' success is the envy of many, and my belts of course are imitated. (What good thing is not?) But my great knowledge to advise and direct my patients is mine alone, and free to all who use my belt until cure is complete.

What would you not give to have your old vim back again? What would you not sacrifice to feel as you did a few years ago;

to have the same snap and energy; the same gladsome, joyous, light-hearted spirit and the physical strength you used to have? You know you are not the same man, and you know you would like to be. You might as well be. It's easy. I am making men out of wrecks every day, and the above offer must convince you what I feel I can do

Call or send to-day for my belt; or, if you want to look further into the matter, I have the best two little books ever written upon Electricity and its medical uses, and send them free, sealed, upon request.

THE SPICE OF LIFE.

A .- "That's Jones' daughter with him. She's just about to be married." B .-"Who's the lucky man?" A .- "Jones."-Pathfinder.

To the infamous Judge Jeffreys, who taunted him with having grown so old as to forget his law, the great Sir John Maynard replied, "I have forgotten more law than you ever knew; but allow me to say I have not forgotten much."

"That dog of yours flew at me this morning and bit me on the leg, and now I notify you that I intend to shoot it the first time I see it." "The dog isn't mad." 'Mad! I know he isn't mad. What's he got to be mad about? It's me that's

An Irishman, being ill, consulted a physician, who gave him a powder, with instructions to take as much at a time as would cover a ten-cent piece. Meeting the man a little while afterward, the doctor was surprised at his haggard appearance. "Did you take the powder, as I told you?" he inquired. "I did, sir," replied the Irishman. "I hadn't a tin-cint piece about me, so I just covered a nickel twice."

The late Bishop Beckwith, of Georgia, was fond of his gun, and spent much of his time hunting. One day the Bishop was out with dog and gun, and met a member of his parish, whom he reproved for inattention to his religious duties.

"You should attend church and read your Bible," said the Bishop.

"I do read my Bible, Bishop," was the answer, "and I don't find any mention of the apostles going a-shooting."

"No," replied the Bishop, "the shooting was very bad in Palestine, so they went fishing instead."

The Kentucky Colonel, lunching at the Arena, was telling the story of a famous Kentucky feud which had died a natural death, there being now only one survivor.

"Do they have any clergymen in Kentucky?" asked one of the party.

"Of co'se," replied the Colonel. "They mus' have clergymen in Kentucky to read the bu'ial suvvice ovah the daid."

The Fulton (Kan.) Gazette reports that a minister of that town was moved by the grief of a husband whose wife was to be buried, and sought to commiserate him in the following manner:-

"My brother, I know that this is a great grief that has overtaken you, and though you are compelled to mourn the loss of this one who was your companion partner in life. I would con with the assurance that there is another who sympathizes with you and seeks to embrace you in the arms of unfailing

To this the bereaved man replied by asking, as he gazed through tears into the minister's face, "What's her name?"

Andrew Carnegie, at a recent dinner in New York, talked about Peebles.

"Peebles," said Mr. Carnegie, "would strike the stranger as a bleak place. Despite its waulk mills, despite its black cattle and its black-faced sheep, despite its River Tweed and its handsome iron bridge across the Tweed, Peebles is not a parish to strike the visitor as gay or

"Nevertheless, the inhabitants of Peebles love their home. They are an odd people, a people gifted with the power of saying amusing, memorable things.

"An old Peebles sheep-raiser once got together a little money and made a journey to Paris. Paris, he had heard, was the most joyous, the most beautiful city in the world. Therefore he would see it before he died.

"On his return, a month or so later, his friends gathered round him.

"Tell us," they said 'what Paris is like. Tell us how it compares with the Scottish cities you have seen.

"The old man compressed his lips. Then he said, rubbing his chin with a reflective look:-

"'Paris, all things considered, is a wonderful place; but, still, give me Peebles for pleasure."
