A Public Meeting was held at the British Hotel. in Bytown, on Tuesday, 13th January, for the purpose of adopting a Memor al to His Excellency the Governor General in Council, praying for reduction of the duties levied on Red Pine Timber.

The Norfolk Messenger publishes a petition recently addressed to the Municipal Council of Woodhouse, by the fair President and Secretary of a public meeting of the ladies of Bloomsburgh and vicinity. They are anxious for the suppression of intemperance, and state that as wives, mothers, sisters, and relatives, " they have often experienced and continue to experience the sad and grievous results, consequent on the legalising of the deleterious traffic in intoxicating drinks. That while sincerely believing that to the domestic and social circle, woman's direct influence should be restricted, the vice of intemperance invades even that sacred circle, and as it would be criminal in them to refrain from interposing, they pray that the Council will refuse licenses to tavern-keepers - Canada paper.

SUICIDE -A poor woman named Williams, residing in Tecumseth, being driven to desperation by a drunken husband, recently out her threat with an axe. The miserable creature took the instrument into the bed with her, and perpetrated the fatal act by pressing her throat against its edge. A Coroner's Inquest having been held on the body, a verdict of Suicide was returned .-Review.

ANTIGUA.-It is announced, upon good autho-

government of this, and some of the neighbouring islands. Sir Charles Grey, the Governor of Jamaica, it is said, is to be recalled : Sir William Colebrooke, now at Barbados, will assume the Government of Jameica; Mr. Mackintosh, our excellent and highly esteemed Governor-inchief, is to proceed to Barbados; and Mr. Drummond Hav, at present Lieut, Governor of St. Kitts, will assume the General Government at this is land.

Jamaiea will not regret the change. Barbados will lose a popular ruler, but will obtain a popular one in return. The effect of the arrangement upon Antigua, is to be known -- Mr. Drummond Hay not having yet filled "the measure of his fanie."-Weekly Times, Jan. 2.

"The Sloop Ing, of Lunenburg, 36 tons-Thos. F. Worger, Master and owner, sailed from Hali fax, was blown off the coast on the 1st Dec., with three hands and three passengers; provided with only one day's stores. They have been tossed to and fro on the wide Atlantic until the 26th, when they reached Mariegalante and obtained a small supply of wood and water, and proceeded on to this port. The poor creatures are in great distress, and as may be well conceived, have endured the greatest privations. They had on freight a quantity of tirewood, 24 barrels flour, 20 gallons molasses, and a chest of tea, and have subsisted for twenty-five days upon flour and molasses mixed with sea water! By the mercy of an all-wise Providence they are preserved, and they appear to be in a good state of health. West India paper, Jan. 6th.

## MISCELLANEOUS.

BRITISH Possessions on the American CONTINENT -In a recent work on the possessions of Great Britain on this continent, it is stated their magnitude is nearly equal to the whole ex tent of the two flussins; almost double that of the European continent, and more than two fold greater than the Persian empire under Darius, or the Roman empire in the plenitude of its power, The crown of England extends its jurisdiction over an aggregate surface of 4,700,000 square stitute miles. The provinces of America, which form but a section of the aggregate British possessions in this Western hemisphere, occupy nearly 400,000 statute miles of land, of which superficies scarcely 9,000 miles have been yet brought under cultivation. The population in round numbers, amounts to nearly 2,000,000 of souls, and doubles itself every sixteen years. The trade to these provinces employs annually upward of 1,800 sail of British shipping, exceeding 47,000 tons, and requiring more than 20,000 sea men. The value of exports to them from Great Britain amounts to more than £2,000,000. It is computed, that in less than half a century, the number of inhabitants spread over the British possessions in this hemisphere will not fall short of 160,000,000 .- Quebec Gazette.

THE SPANISH NAVY.-The Spanish royal navy now consists (according to a table just published) of one line of battle ship, laid up at Cadiz, and two in construction at Cadiz, and one in construction at Ferrol; five frigates-two at sity, that a change is about to take place in the Cuba, two at Cadiz, and one in construction at Ferrol; six co-vettes, eight brigs of first class. three of second class, two brig schooners, five schooners, and twenty one steamers of all sizes, of which five are at Cuba, five others employed as packets between the Peninsula and the Antilles, and four at the Philippine Islands, or on the way there. There are also eight transport ships. This list is exclusive of the coasts guard service, which is stated to comprise six steamers, two brig schooners, shree misticos, fourteen feluccas of first class, twenty of second class, and sixty five smaller wessels

INCREASE OF AMERICAN CITTES .- Hunt's Merchant's Magazine contains an interesting and instructive article on "the growth of towns in the United States." It shows that during the last ten years, the growth of cities has been more rapid than during any previous ten years of the country's history. Ever since 1790, New York has doubled itself every filteen years. At that time it contained about 33,000 people. New, with its suburban dependencies, it contains 600.000.--Boston and suburbs, in 1790, contained 30,000 people. Its average period of duplication has been twenty-one years, and it now contrins, with its suburban cities and villages, 212,000.
