Billy Scott is out against the ballot, and for this reason. He was an applicant for the office of streets Inspector, and four of the members of the council promised to vote for him. As a matter of fact he got only two votes but the vote being by ballot, he can discover no way of finding out who lied. And so Billy votes the ballot a failure.

A joint meeting of the Board of Trade and Town Council was held on Friday evening last, to consider the advisability of taking steps to place before the County Council the advantages of Walkerton for the proposed House of Refuge. After a full discussion of the subject, it was concluded that the County Council would no doubt take such action as they deemed best in the interests of the county, irrespective of local consideration, and that therefore it was not advisable for interested localities to interfere.—Tele- scope.

Letters to the Editor.

To Institute officers and Delegates sent to address meetings—

The general elections which have been recently announced will doubtless interfere with the work of the Farmers' Institutes. I beg to call your attention to the following clauses of the Act and rules governing Farmers' Institutes, and respectfully request that you will do all in your power to have these clauses faithfully carried out whenever meetings are held in your district. All political discussions and all reference to political topics either directly or indirectly, should be studiously avoided at all Institute meetings. The Farmers' Institutes are non-political in the strict sense of the word. Please see Clause 25 of the Act and rules, which reads as follows: "No subject shall be presented at an Institute meeting or discussion allowed, of a political or sectarian nature; nor shall any speaker be allowed in his lecture, essay, or speech, or in any discussion, to advertise wares or schemes in which he has a direct or indirect pecuniary interest. The delegates and officers of the Institute shall see that the exercises are not subordinated to any low or frivolous entertainments, or to the aggrandizement of any individual, party, or sect."

The attention of Delegates is called to clause 7 of the Rules governing dele- gates.—"Long speeches, or those calculated to advertise the property of the speaker, are contrary to the rules governing Institutes. Party politics in any form shall be avoided by each speaker when out on Institute work. The chairman of each delegation and the officers of each Institute are expected to see that nothing of this kind occurs. Institute speakers are expected to teach agriculture, nothing else."

Delegates are urgently requested not to discuss political questions or politics in any form before or after the meet- ings. It is not even necessary or desirable for a delegate to make known his or her political allegiance. It is very desirable to make the Institute system of value alike to all classes without any regard to politics.

The attention of Secretaries is called to Clause 60 of the Act and Rules, which reads, "The Secretary shall, when possible, retain the manuscript of all papers read at meetings of the Institute by local talent, in order that he may, when required, furnish the Superin- tendent with the same. Each Institute is required to forward at least two such papers each year, which may be published as the Superintendent decides. Secretaries or essayists are not required to re-write papers before sending them to the Superintendent; forward them as read at local meetings. Secretaries who have not yet complied with this regulation are respectfully requested to do so at their earliest convenience.

Notice.—At the urgent request of Institute workers in all parts of the Province, it has been decided to cancel all meetings which were to have been held after the 19th of February. There fore delegates are requested to cease work and return to their homes at the close of their meetings to be held Satur- day, February 19th, 1898. In districts where meetings, which are now adver- tised, are cancelled, and the local officers wish to hold said meetings after the 2nd of March, if the Secretary will inform me at once when and where his Institute desires to hold meetings, I will do all in my power to supply speakers and otherwise meet the wishes of the local officers. Very truly,

F. W. Hodson.

Everything is progressing favorably round the mill. There is not a tremen- dous amount of work, yet enough to keep things moving.

The I. O. G. T. hall was comfortably filled on Wednesday to hear the provin- cial politics torn asunder and built again by Messrs. Mooney and Chisholm for the tearing down and Hyslop and Irwin for the setting up. Mr. Charles Wilson acted as chairman in an impartial man- ner. The two candidates, Messrs. Mooney and Hyslop are progressive farmers in Morris and Grey respecti- vely and both new men in the field. Mr. Hyslop, who is much the younger of the two, promises to be a platform orator of no small caliber. The two gentlemen are holding joint meeting throughout the riding.

On Monday evening of last week Mr. H. O. Fitzgerald, a farmer residing near St. Catharines, failed to return home, and as he had to cross the canal on his way, it was feared by his relatives that he had fallen into the water and that his body was under the ice. These fears proved to be too true for on Friday the body was found near the hole where the unfortunate man was supposed to have fallen in. When found he had a lantern on his arm which he had not lighted, and as he usually went along with his hands in his pockets, was probably swept under the ice by the current, which is strong at that point, and was utterly unable to help himself. Mr. Fitzgerald was a brother of Mr. A. A. Fitzgerald, manager for Gillies & Co. bankers, Teeswater. He was about 40 years of age and lived with his mother and sister who are plunged in great grief by this deplorable occa- sion.—Teeswater News.
