

AN APPEAL TO DANIEL

Four Councillors Asked Him to Resign and Run Again.

Conclusion Reached Before Petition Was Presented.

(From Friday's Daily.) Mayor Dean considered that the Miner's report respecting the question of a police investigation and the councillors' appeal to Alderman Daniel was worded in such a manner as to do the city fathers an injustice...

LIBERALS TO ACT

A MEETING TO BE HELD TONIGHT TO DISCUSS POLITICAL SITUATION DEVELOPED IN PROVINCE WILL BE DEBATED.

(From Thursday's Daily.) The local features of the political situation just developed in the province will be the principal topic of discussion at tonight's meeting of the Rossland Liberal Association...

THE MAYOR SAYS NO!

WON'T COMPLY WITH ALDERMAN DANIEL'S SUGGESTION TO RESIGN.

THE ALDERMAN PROPOSED A FIGHT FOR MAYORALTY HONORS.

(From Saturday's Daily.) "I don't see why I should take any notice of Alderman Daniel's letter," is Mayor Dean's succinct comment on the communication received by him yesterday from the civic finance minister...

to the communication, as published in yesterday's Miner, from Mayor Dean and Aldermen Embleton, McKichan and Dunlop, in which Alderman Daniel was recommended to resign his seat...

Rossland, 5th June, 1903. John Dean, Esq., Mayor. Sir—I am in receipt of the communication from yourself and some of the members of the city council, in which you ask me to resign my position as alderman of the city...

BISHOP DART HERE

Interesting Services at St. George's Church and Trill.

(From Saturday's Daily.) Bishop Dart, the ecclesiastical head of the diocese of New Westminster and Kootenay, arrived in the city last night and will be the guest of Rev. Charles W. Hedley, M. A., rector of St. George's church, during his stay in the city.

At 4:45 o'clock this afternoon evensong will be sung at St. George's church, followed by a confirmation service. Tomorrow at Trill, His Lordship will conduct ordination services...

WILL CLOSE EARLIER

MERCHANTS CONSIDERING EARLIER CLOSING OF STORES DURING SUMMER.

PETITION TO BE CIRCULATED TODAY—FAVORABLE RECEPTION PREDICTED.

(From Friday's Daily.) Now that the days are growing warmer and longer, movement has been started to have the stores closing during the summer months at 6 p. m. instead of at 8:30, as is now the case. A petition to this effect will be circulated, it is understood, today among the principal merchants...

NO INVESTIGATION

CITY FATHERS OPPOSED TO SEARCHING THE AFFAIRS OF 1902.

(From Thursday's Daily.) The city fathers have decided not to accede to the request for an investigation of the police department and administration of 1902. Their objection is on the score of expense. Instead, they have asked Alderman Daniel to resign his seat at the council and seek re-election at the hands of his constituents...

FIRST SHOT A BULL

CAPTAIN LALONDE FIRED FIRST SHOT OVER FERNDALE RANGES AND STRUCK TARGET SQUARELY IN THE CENTRE AS A STARTER.

(From Thursday's Daily.) With the first shot fired over the new Ferndale ranges a bull's-eye, the Rossland Civilian Rifle association opened the ranges and the season yesterday afternoon under favorable and pleasant auspices. The indications are that the organization will be eminently successful both in respect to interest manifested and pleasure secured by the members...

COMING 100 STRONG

THIS MANY CHAMBERS OF COMMERCE DELEGATES WILL VISIT ROSSLAND.

PREPARATIONS MADE FOR RECEPTION—OTHER BOARD OF TRADE BUSINESS.

(From Thursday's Daily.) Steps were taken at last night's meeting of the board of trade to arrange for the reception and entertainment of the delegates to the fifth annual Congress of Chambers of Commerce of the Empire, who are expected to reach Rossland 100 strong in September next. The event is so far ahead as to make it difficult to outline any absolute program at this juncture, but the initial steps have been taken by the appointment of a committee to handle the affair. The congress takes place in Montreal between the 16th and 21st of August. Rossland's delegates will be Anthony J. McMillan, managing director of the Le Roi and Snowshoe mining companies, and A. H. MacNeill, K. C. Following the congress, the delegates to the number of 100 will make a tour of Canada, and Rossland is included in the itinerary. At present the arrangement is that the party is to travel in two special trains. The first of these, with 50 delegates aboard is due here on August 15th, arriving before 6 o'clock and departing the next afternoon at 2 o'clock for the Boundary. The second special, with 50 more delegates, reaches here on the evening of the 14th and departs the next afternoon at the same hour for the Boundary. The local committee of reception consists of A. H. MacNeill, K. C., S. F. Parrish, general manager of the Le Roi company; C. V. Jenkins, of the War Eagle and Centre Star companies; J. S. C. Fraser, manager of the Bank of Montreal; J. B. Johnson and A. S. Mackenzie. It is proposed to take the visitors to the mines of the camp, but the details of the entertainment are yet to be worked out. The secretary was authorized to write Smith Curtis, M. L. A., that the board was prepared to back him up in any effort he might make to secure an appropriation for the local school funds in view of the probable deficit on this account. REFORMS WANTED. A communication was read from an ecclesiastical body in Toronto asking the board to endorse a petition to the federal government for legislation toward discouraging political corruption in Canada. One member suggested that J. Burt Morgan be invited to handle the matter, while another thought the Rossland Ratepayers' Protective association could do justice to the subject. Peter R. McDonald was strongly of opinion that the board should endorse such a representation to the government, but the subject was dropped when the chairman ruled the whole matter out of order on the score that it was outside of the board's sphere.

STRIPPED FOR FRAY

ROSSLAND CONSERVATIVES LINE UP ENTHUSIASTICALLY FOR CAMPAIGN.

(From Saturday's Daily.) Rossland Conservatives are already stripped for the forthcoming political battle, and the indications are that the party locally will present a more united and solid front than has been the case here in any campaign up to the present time. The regular weekly meeting of the Rossland Conservative association took place last night at the board of trade rooms and the accommodation was not sufficient for the turnout of members. This has led the association to conclude that one of its pressing necessities at the present moment is larger quarters, and action is to be taken to provide these forthwith. A committee was appointed to secure a more commodious meeting place at once, and it is expected that the next weekly meeting will be held in the new rooms where the full membership of the association can be comfortably accommodated. An announcement as to the rooms will be made when the arrangements are completed. The association also decided to meet weekly on Friday nights until further notice. The necessity for keeping in thorough touch with the progression of events political is the reason for this conclusion, and the enthusiasm manifested last night by the members is sufficient to guarantee large gatherings weekly. Preliminary committees were appointed for the approaching campaign, and the members appointed for such duties cordially undertook their responsibilities. The provincial division on party lines was received with approval, and the local Conservatives are determined to advance the interests of their party along every legitimate line that offers during the next few months.

OFF TO NANAIMO

Rev. A. M. and Mrs. Sanford Given Cordial Send-off.

(From Thursday's Daily.) Rev. A. M. Sanford, for three years pastor of the Methodist church, departed last evening for Nanaimo to take charge of the Methodist church at that place. Mr. Sanford was accompanied by his wife and a few friends, who went as far as Robson with the departing clergyman. Mr. and Mrs. Sanford will stop off a few days at Enderby and Seacombs to visit old friends. At the depot Mr. Sanford and wife were met by a score of friends, who were present to bid good-bye and wish them success in their new field. A number of those present at the depot were members of Mr. Sanford's congregation, while others represented fraternal organizations with which he is connected. George Hering, representing the Masons and Odd Fellows, was in attendance with other officers of the local lodge of Odd Fellows. Several presents were tendered the departing clergyman and his wife, principally by members of his congregation in this city. The ladies of the Methodist church were on hand in a body and as the train pulled out joined lustily in the rounds of cheers. At Vancouver, Victoria and New Westminster the feeling is that the Liberals must win, and coming through from the coast I found Liberals jubilating everywhere over the prospects for success. With no further acrimony, all unity and harmony, a record throughout Canada of stainless leaders, we will be able to put history into active force as to the leaders of the Conservative party in federal politics, but especially in British Columbia. "As federal party lines have been forced on us by the Conservatives we will be able to dip our pens into federal ink to the disadvantage of the Conservatives. "With a pure voters' list, strong and capable men in the field and a reasonable amount of work, I am assured of success all along the line from the coast to the Kootenays. It is the duty of all Liberals to fall in line loyally for the contest that is now at hand."

SWEET PEACE RULES

IN PROVINCIAL LIBERAL PARTY AFTER MARTIN'S LAYING AWAY.

DR. SINCLAIR TELLS OF PARTY'S PROSPECTS FOR ELECTION.

(From Saturday's Daily.) Dr. A. C. Sinclair, the war horse of the Liberal party in the Kootenays, has returned from Vancouver, where he attended the executive meeting of the Provincial Liberal association. He is enthusiastic over the prospects of the party in the forthcoming general election, as every veteran politician ought to be on the eve of a campaign. Dr. Sinclair sees victory looming up on the horizon for the Liberals and his views are interesting as indicating the attitude of the heads of provincial Liberalism. Of course, all good Conservatives will promptly differ, while the average voter will regard both sides of the story and make his decision accordingly. "Yes, we had a splendid meeting of the provincial executive at Vancouver," said Dr. Sinclair, on being asked about his trip by a Miner man. "After the resignation of Joseph Martin was conditionally placed on the table it marked a new era in provincial politics. And let me say that as soon as it was shown Mr. Martin that no other course was open to him to ensure the success of the great Liberal party he most graciously and loyally yielded to our request. Now that this matter is positively and conclusively settled, the Liberals go to the electorate with an undivided front. "At Vancouver, Victoria and New Westminster the feeling is that the Liberals must win, and coming through from the coast I found Liberals jubilating everywhere over the prospects for success. With no further acrimony, all unity and harmony, a record throughout Canada of stainless leaders, we will be able to put history into active force as to the leaders of the Conservative party in federal politics, but especially in British Columbia. "As federal party lines have been forced on us by the Conservatives we will be able to dip our pens into federal ink to the disadvantage of the Conservatives. "With a pure voters' list, strong and capable men in the field and a reasonable amount of work, I am assured of success all along the line from the coast to the Kootenays. It is the duty of all Liberals to fall in line loyally for the contest that is now at hand."

VELVET DOES WELL

MANAGER GRAY'S STATEMENT ANENT RECENT DEVELOPMENTS AT MINE.

THIRD LEVEL PROVES STRONG—BRIGHT OUTLOOK FOR PORTLAND.

(From Saturday's Daily.) The Velvet mine is employing forty-two men at the present time, according to Manager William Gray, who has been in the city for several days on business. He reiterates the statement anent the shortage of teams for hauling ore, remarking that the present equipment of six teams will be doubled as soon as the horses can be procured. On the first level of the mine no operations are being conducted at the present time. Drifting is steadily under way on the second level, however. A seventy-foot shoot of ore was run through at this depth and after a short break in the vein, another twenty feet of ore was encountered. The second shoot proved to be decomposed quartz, carrying average values of \$29 per ton. The workings have been continued toward the Portland and are probably over the Portland line by this time. It is the intention to continue in this direction the Portland and Velvet companies being closely connected in respect to ownership. A raise has been started to connect the second level of the Velvet with the first level of the Portland, where some excellent ore has already been opened up. The third level of the Velvet has been run to a point beneath the big ore body on the second level, and is in ore. This establishes the continuity of the ore to the 300-foot level, and is the most recent development of interest in connection with the mine. In addition to the ore extracted in the course of recent working, the Velvet has, according to the manager, 1500 tons of \$15 fines, which is to be shipped to the smelter as rapidly as possible. The company will reap a substantial profit from this class of ore.

BURNED TO A CRISP

FRIGHTFUL FATE OF A SWEDISH SHEEP CREEK ON WEDNESDAY.

(From Saturday's Daily.) The report of a frightful fatality is to hand from Sheep Creek station. On Wednesday morning several children playing in the neighborhood of a log cabin, owned by a woodcutter named Breithead, found the building a mass of charred embers with a skull lying in the remains of the shakedown. The youngsters notified some of the neighbors, and it was found that the occupant of the cabin had met a horrible death. The dead man was a Swede in the employ of Contractor Manson as a woodcutter. On Tuesday he was in Northport, and is understood to have been the worse of liquor. Indications pointed to the fact that when Breithead returned home from Northport he went to bed at his shack with a lighted candle in a miner's candlestick stuck in the side of his bed. The candle finally burned short, set fire to the shakedown and blankets and the unfortunate man was consumed in the fire that followed. The skull and a few charred bones were all that remained of the body. An inquest was held, at which a verdict along the foregoing lines was returned. The bones were interred at Frontier, just south of the international boundary line. The unfortunate man's cabin was located on the banks of Sheep Creek, about half a mile below the residence of Archibald N. Patterson, customs officer. The dead man was about 45 years of age, and had no relatives so far as is known.

THE NEW PHOTOGRAPHY

Since the Roentgen rays were discovered it has been found by Becquerel that the electrons will fly off from the atoms of some substances without any external stimulus by light or electricity. Uranium has this property, and radium, discovered by Mons. and Mme. Curie, has it in a greater degree. The electrons, or electrically charged particles, of radium will shoot through a foot of solid wood or aluminum, thus showing how unsubstantial are many things we call "solid." There is a room between the atoms of wood for these electrons to pass straight through without hitting, like Maxim bullets between the files of a regiment in "open formation." You don't need an X-ray apparatus now to photograph a penny swallowed by a child. A test tube of radium held on one side of the body, and a sensitive plate in a wooden frame on the other, will give the same result. The electron shoot through the body without hurting it, and print the photograph on the plate. These theories of matter will sound like fairy tales to the ordinary reader. Of course, they cannot be argued here; it is enough to state that they are hypotheses soberly advanced by careful thinkers.
