CIRCUS DAY.

The Kids are Planning for a Big Holiday.

At Brockville, Friday, July 25th, Sparks World's Famous Shows will hold forth for a matinee and night performance, and the rare, unique and wonderful things that have been promised on paper will become a reality.

The airy riders who, in diaphanous skirts have been pirouetting on the expansive backs of beautiful and speedy circus horses (on the billboards), will be seen in all the gorgeousness of tulle and seductive smile; the elephants will copy their pictured acts of comedy and go them one better; the contortionist will proceed to disentangle himself from the knots he tied in his responsive body last year; the acrobatic families will turn dizzy somersaults and the clowns will work off their best and latest comedy stunts to the great delight of the crowds present—we all like the clowns.

There is nothing on earth like the circus. It is the people's show par excellence. It is the one great

American amusement that appeals to all the people.

The merit in a big circus like the Sparks Shows is in the fact that everything in the show is the very best of its kind. There must inevitably be riding acts, but the riders are the leaders of their profession. There must be acrobats, but the acrobatic artists and aerialists are gathered from the wide world and are the best that money can procure.

It is this superiority in the quality of the performers that makes the Sparks Shows such a welcome visitor.

BUY YOUR COAL NOW.

A survey of the coal situation by the Commission of Conservation proves that a coal shortage next winter, and possibly next autumn, is almost a certainty.

During the year ended May 24, the output of anthracite was only 1,679,000 tons. This production is 65,000 tons less than the week preceding, and is 326,000 tons less than the corresponding week in 1918. While the production is falling off, retail dealers in the United States continue to be deluged with orders from customers who are insistent upon prompt deliveries.

In addition, if there is such a serious shortage, we may confidently expect much higher prices for anthracite. Therefore, the Commission of Conservation advises consumers to purchase their winter supply of hard coal at the earliest possible date.

ROD AND GUN FOR JULY.

Anyone reading "Fish, Fishing and Fishermen" by George R. Belton in **ROD AND GUN IN CANADA** for July cannot help thinking of the good old days when a bent pin, a piece of string and a willow switch made the best fishing tackle for shiners, chubs and rock bass. "The Albino Bass of the Ottawa" is the title of a real fishing story from the Dominion Capital which is one of the several good stories in the national outdoor magazine for July. The six illustrations showing the capture of a Newfoundland salmon are the best this year. They accompany a splendid article on the Humber, King of Atlantic Salmon Streams. The interesting departments, Guns and Ammunition, Fishing Notes, Conservation, Kennel and Trap are all up to their usual standard and along with the second instalment of that interesting serial, "The Bear of Silves Dale" go to make up one of the best summer issues of the Canadian national sporting monthly. **ROD AND GUN IN CANADA** can be obtained from any bookstand or direct from the publishers, W. J. Taylor, Limited, Woodstock, Ont.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Medicine is the positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Medicine is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.
