

SHE TOOK HER FRIEND'S ADVICE

AND DODD'S KIDNEY PILLS CURED HER SON.

Straight and Simple Statement Tells of Another Grand Cure By the Old Canadian Kidney Remedy.

Springhaven, Yarmouth Co., N. S., March 31 (Special).—Simple and straight to the point is the statement of Mrs. Erven C. Trefry, of this place, but it tells of another grand cure by Dodd's Kidney Pills.

"My fifteen-year-old son, Angus," Mrs. Trefry states, "suffered from pain in his back, headache, and a pain over his eyes."

"He was so bad he could not walk across the floor. My friends advised me to give him Dodd's Kidney Pills."

"They cured him."

"That young Trefry's kidneys were wrong is evidenced by the cure. Dodd's Kidney Pills only cure diseased kidneys. They never fail to do that."

The reason they cure rheumatism, backache, gravel, dropsy, Bright's disease, diabetes, and kindred diseases, is that these all spring from disordered kidneys.

If you have any of these diseases you haven't tried Dodd's Kidney Pills. Ask your neighbors. They'll tell you Dodd's Kidney Pills always cure them.

HOW FAR MAN HEARS.

Science Now Busy Determining Human Range of Sound.

In the sense of hearing, numerous problems have interested physiologists, writes Professor A. T. Boffenger in the Strand Magazine. Among these may be mentioned the range of sounds that can be heard by an individual—that is the limit above and below which no sound can be heard.

The solution of these two problems, the determination of the upper and lower limits of sound, has occasioned a great deal of careful work and the construction of many forms of apparatus. For determining the upper limit of sound for any individual—and individuals differ considerably—the Galton whistle is generally used. It consists of a tiny pipe, which is lengthened or shortened by a piston adjusted by a micrometer screw. This little instrument can be regulated to make a tone which is too high for any human ear to hear, and which will finally produce only a painful sensation.

The Galton whistle was devised by Francis Galton for his study of individual differences. He had one of the whistles built into the end of his cane, and as he walked through the Zoological Gardens he would blow it near the ears of the various animals. He adjusted the whistle too high for his own ear to hear, and if the various animals responded to the sound he knew that their upper limit was greater than that of the human ear.

The ordinary human ear can detect a tone whose vibration is at least twenty-five thousand vibrations per second, while the whistle will produce fifty thousand per second. This upper limit varies with the age of the individual to such an extent that, if the upper limit at sixteen years of age were fifty thousand vibrations, at sixty years of age it would be about twenty-five thousand per second.

FLY TO PIECES.

The Effect of Tea and Coffee on Highly Organized People.

"I have been a coffee user for years, and about two years ago got into a very serious condition of dyspepsia and indigestion. It seemed to me I would fly to pieces. I was so nervous that at the least noise I was distressed, and many times could not straighten myself up because of the pain."

Tea is just as injurious, because it contains caffeine, the same drug found in coffee.

"My physician told me I must not eat any heavy or strong food and ordered a diet, giving me some medicine. I followed directions carefully, but kept on using coffee and did not get any better."

"Last winter, my husband, who was away on business, had Postum served him in the family where he boarded. He liked it so well that when he came home he brought some with him. We began using it and I found it most excellent."

"While I drank it my stomach never bothered me in the least, and I got over my nervous troubles. When the Postum was gone we returned to coffee, then my stomach began to hurt me as before and the nervous conditions came on again."

"That showed me exactly what was the cause of the whole trouble, so I quit drinking coffee altogether and kept on using Postum. The old troubles left again and have never returned."

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one came from Mrs. J. M. Trefry, of Los Angeles, Cal., and full of human interest, genuine, true, and full of human interest.

To the refreshment department of the British House of Commons legislators pay over \$40,000 a year for wipers. The kitchen committee has an exceedingly low tariff for alcoholic beverages. Champagne is many shillings a bottle lower than in good restaurants outside the House. An excellent half bottle of white or red wine can be bought for 12 cents, while 3 cents only is charged for a small cup of black coffee and a liqueur of brandy. The teetotalers in the House number about a hundred.

Umbrellas for Warships. In order to gain protection from bombs dropped from aeroplanes, the British have invented "armored umbrellas" for their warships, and they have been received and tried out at Portsmouth. Unusual secrecy has been maintained in the fitting of a ship with the umbrellas. To each funnel, however, will be a sort of umbrella, to prevent the bombs falling into the uptake of the funnels and blowing up the ship's boilers.

Men Who Don't Exercise

Suffer From Indigestion, Head-Aches, Poor Appetite, Sleeplessness.

Nothing so Sure to "Set Up" a Man, Make Him Feel Brisk and Vigorous as Dr. Hamilton's Pills.

Lack of exercise and overwork were the causes that combined to almost kill Samuel S. Stephens, Jr., one of the best known citizens in Woodstock, Vt. In his convincing letter, Mr. Stephens says:

"A year ago I returned home after a

long trip, completely worn out. I was so badly affected by chronic biliousness, so much overcome by constant headaches, dizziness, that I despaired of ever getting well."

"It was a blessing that I used Dr. Hamilton's Pills. In one week I felt like a new man. The feeling of weight and nausea in my stomach disappeared. My eyes looked brighter, color grew better, and, best of all, I began to enjoy my meals. The dizziness, languor and feeling of depression passed away, and I fast regained my old-time vigor and vitality. Today I am well—thanks to Dr. Hamilton's Pills."

For health, strength, comfort and good spirits there is no medicine like Dr. Hamilton's Pills. 25c. per box, five boxes for \$1.00, at all druggists and storekeepers, or by mail from The Cataractine Co., Buffalo, N. Y., and Kingston, Canada.

Paper Money Began in China.

Paper money is said to have had its origin in China in the year 806, when the government issued it to relieve a financial stringency, receiving coin in return, which enabled it to pay off outstanding obligations. In the museum of St. John's College in Shanghai is a paper bill worth 1,000 cash, the equivalent of 50 cents American money, which was issued by the first Ming emperor (Hung-wu, A.D. 1368-1398). It is nearly two feet long and one foot wide, printed on mulberry bark paper, and is a dark slate color.

OLD SORE HEALED IN SIX DAYS

Nearly Impossible to Heal Skin. Badly Hurt. Sore, Red and Inflamed. Could Not Sleep. Cuticura Soap and Ointment Healed.

Bowman River, Manitoba.—"When I was thirteen years of age I got my shin badly hurt and when healed the skin was attached to the bone. The least bruise would inflame it and it was nearly impossible to heal. The sore would be very red and inflamed round the edges and had a burning sensation. When cuticura ointment was applied it healed in six days."

FOR PIMPLES AND BLACKHEADS

Treatment. Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and before bed. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Sold throughout the world. Liberal sample of each free, with 35-p. Sixth Book. Address post card, Cuticura, Dept. 7, Boston, U.S.A.

FRENCHMEN FEAR AIRSHIPS.

Think They Are Being Outclassed By the Germans.

French opinion is waking up to the fact that Germany, in the sphere of military aeronautics, is leaving France badly in the rear.

General Lacroix and a number of other eminent strategists unite in declaring that France has nothing to show against Germany's aerial

crusaders but a fleet of "penny steamers," and they strongly deplore the attitude taken generally in France towards dirigibles. They think the sudden development of aeroplanes came, an entirely unwarranted enthusiasm for those machines, and a corresponding disavowal of dirigibles. General Lacroix holds that the opposition to rigid dirigibles in France is quite wrong; the couple type of airship favored by the French military authorities is, from the military point of view, exceedingly risky, a pin prick sufficing to destroy them. Airships of the German rigid type, with their several compartments, are capable of withstanding considerable damage before being put absolutely out of action.

BRICKBATTLES OF SAWDUST.

New Industry Being Operated With Success in Germany.

A new industry may be successfully combined with the planing mills, that of making of the sawdust briquettes to be used for firing under the boilers, thus considerably decreasing the cost of the fuel to the mill owner. This is being very advantageously done in Germany. The sawdust is automatically gathered and conveyed to a place near the presses. From here it is carried over a heated belt conveyor to a drying-room. This has a cylindrical revolving drum about two feet in diameter and 30 feet long. In this drum the sawdust is partially dried, the pitch contained in the wood is softened, and hereafter as a binder. From here the sawdust is conveyed over an incline to the after-dryer of the same shape as the first dryer which forms a part of the press.

"What are you doing, dear?" asked the little girl's mother, as she paused to look at some very strange marks the child had been making on a piece of paper.

CLIMATE OF NOVA SCOTIA.

Many Advantages of Living in Proximity to the Sea.

A gentleman who has spent some years in Nova Scotia writes as follows:—"We have 336 days in the year out of 365 in which the thermometer goes above 32 degrees. This is 28 days greater than for any other part of Canada. We have 276 days in the year in which the thermometer rises above 40 degrees of temperature. This is better by 26 days than any other part of Canada, save the Pacific Slope. We have 200 days in which the thermometer goes above 50 degrees of temperature during the year. This record is the same as enjoyed by the southern section of Ontario and by the southern strip of the Western Provinces. When we get into the higher degrees of temperature we find we do not have the same excess of heat as in Ontario or other portions of Canada. 141 days above 80 degrees as compared with 180 and 180 in Ontario 150 to 75 days above 70 degrees during the year, while parts of the west of Canada, as well as Ontario, have as many as 75, 100 and 115 4 days in which the thermometer reaches a higher degree of temperature than 70 degrees Fahrenheit. This is evidence for our statement that we share neither the excessive heat nor the extreme cold of the Western part of Canada or the Northern United States. A splendid environment of fresh air, clear water, green fields, and leafy woods, added to other advantages, gives us an abundance what is necessary for ideal home life."
