THE NEWCASTLE UNION ADVOCATE

VOL. 42.—NO. 46.

NEWCASTLE, NEW BRUNSWICK, TUESDAY, MAY 31, 1910.

THREE CENTS.

LAD TRAVELS ON THE BLIND BAGGAGE FROM ST. JOHN

Moncton, N. B., May 28—A lad named Amos Lavigne, in hard circumstances, was brought to the city this morning on No. 10 express from St. John. According to the boy's story he is eleven years old and formerly belonged to Bathurst. His mother, he says, has been dead for some years and his father went away and left him and another brother to look after themselves. Last summer his

brother went to St. John to work in the cotton factory and took Amos with him. The lad says that last night his brother told him to go home to Chatham and he climbed on the blind baggage of No. 10 train. He was discovered by the conductor and taken inside the car and brought to Moncton. He will likely be sent to Bathurst today. He says he has an uncle there.

GEORGE LOUNSBURY OF FREDERICTON DROWNED IN RIVER NEAR OROMOCTO

Member of House Boat Party Returning to Capital Fell Overboard While Talking to two Young Women Near the Rail—Was Clerk With W.E. Farrell

Fredericton, N. B., May 28—The St. John river claimed another victim last night, when George Lounsbury, son of Mr. and Mrs. John Lounsbury, of this city, was drowned near Oromocto. He was one of an excursion party of twenty-five young people from the city and Gibson who left here at 8 o'clock on a house boat in tow of the tug Allan Sewell.

They went to Oromocto and spent about an hour at Stocker's summer hotel. They left for home at 11 o'clock and fifteen minutes later, while passing Thatch Island, Lounsbury, who had been standing near the railing of the houseboat, lost his balance and fell overboard.

Two young women with whom he had been conversing, gave the alarm and the tug was stopped and put about. Diligent search was kept up for two hours, but no trace of him could be found. He was unable to swim and it is supposed that he sank immediately. Some of those on board think that his fall may have been due to a fainting fit.

Several of the young women on board became hysterical and it was a saddened party that reached the city at 2 o'clock this morning. Rev. J. H. McDonald was called to break the terrible news to Lounsbury's family.

The young man was aged eighteen and was employed as a salesman by W. E. Farrell. He was a bright youth and had many friends who are greatly shocked at the news of his death. The family removed to the city from Queensbury two years ago. The late G. A. Lounsbury of Newcastle was an uncle of the deceased.

The tug returned to Oromocto this morning to renew search for the body.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c. per bottle. Take Hall's Family Pills for constipation.

The Queen Mother selected "Peace, perfect peace," and "On the Resurrection Morn'" as her favorite hymns when asked to choose music for the service at Buckingham. It has been noted that King Edward recently chose "Wearer my God to Thee" when a similar request was made of him at Biarritz.

The span of a single life sees many changes. At the time of Queen Victoria's coronation it was a little and care-free Goldwin Smith who ran behind his carriage from Elton to Windsor. Today a prisoner within the confines of his home, the Sage mourns the death of him who was Victoria's son and his own page!

The New York Stock Exchange was closed for one hour on Saturday, a mark of respect accorded to no other monarch except Queen Victoria. While supporting a form of Government different from that of Britain, the people of the United States have a deep respect for British institutions and the American settlers who are flocking into the Canadian West readily adapt themselves to their new environment and will make loyal citizens of the Empire.

FORESTRY BRANCH, DEPT. OF THE INTERIOR PRESS BULLETIN

The Forestry Branch of the Department of the Interior has just issued its eighth bulletin, entitled "Forest Products of Canada, 1908." This gives the result of the first year's work by the Branch in the collection of statistics regarding the annual production in Canada of lumber, pulpwood, poles and other wood products. The figures have been compiled by Messrs. H. R. MacMillan and G. A. Gutches.

These statistics have been compiled from answers to circulars sent out by the Branch to manufacturers in the different wood-working industries. While it is not claimed that they are complete, yet the figures they give seem to be the most comprehensive yet published.

The work was new, both to the manufacturers and to the officials of the Forestry Branch, and mistakes have no doubt occurred in it. The work is to be continued, however, and increasing familiarity with the work, both on the part of the manufacturers and on that of the Branch will doubtless bring about greater accuracy and completeness in the returns.

The total value of the production of lumber, lath, shingles, cross-ties, poles and pulpwood during the year was \$67,425,044.

The production of sawn lumber is shown by the figures to be in the neighborhood of 3,348,176,000 feet, board measure, per annum, valued at \$54,834,036. In this Ontario leads with a production of 1,294,794,000 feet, valued at \$24,398,077, Quebec being second with 690,135,000 feet of the value of \$10,838,608, and B. C. third, with 647,977,000 feet worth \$9,107,186. The other provinces rank in the following order:—N. B., 308,400,000 feet valued at \$4,081,402; N. S., 216,825,000 ft., of the value of \$2,873,730; Saskatchewan, 91,166,000 ft., valued at \$1,576,820; Manitoba, 56,447,000 ft., value, \$867,969; Alberta, 41,382,000 ft., valued at \$593,244. The total production of wood pulp is 363,079 tons, made from 482,777 cords of wood and valued at \$2,931,653.

738,157, paying therefor \$5,189,674, and the electric roads (numbering 32 and having 818 miles of track) purchased 240,259 ties costing \$92,011. Cedar (including under this term both the eastern and the western cedars) is easily the favorite wood for ties, twice as many ties being of this species as of any other, while hemlock and tamarack in about equal numbers take next place.

POLES USED

Reports as to the poles purchased were received from 46 telegraph and telephone companies, 151 electric light, power and railway companies and 19 steam railways owning their pole lines. These represent 66,544 miles of line, supported by 2,433,245 poles. These companies bought a total of 185,807 poles, paying for these, at the point of purchase, \$284,549. Of these 185,807 poles 162,211 were of cedar, other woods used being tamarack, spruce and Douglas fir.

WHY SUFFER?

Breath Hyomei and Kill the Loathsome Catarrh Germs.

Just as long as you have catarrh your nose will itch, your breath will be foul, you will hawk and spit and you will do other disgusting things because you can't help yourself. The germs of catarrh have got you in their power; they are continually and persistently digging into and irritating the mucous membrane of your nose and throat. They are now making your life miserable; in time they will sap your entire system of its energy, its strength, its vigor and vitality.

But there is one remedy that will kill the germs and cure catarrh, and that is Hyomei, the Australian dry air treatment. Joseph Dural, of Woodstock Street, Tavistock, Ont., says: "Catarrh had given me all kinds of suffering for a long time. There was a swelling of the glands under the eyes and adjacent to my nose and the discharges would drop into my throat. I used several remedies, but never got the relief that I did from Booth's Hyomei. I have been so pleased with Hyomei results that I highly recommend its use to catarrh sufferers."

T. J. Durick the druggist, will guarantee Hyomei to cure catarrh or money back. Don't delay this pleasant anti-septic treatment. Breath in Hyomei and kill the germs.

T. J. Durick will sell you a complete Hyomei outfit including inhaler, for only \$1.00. It is also guaranteed to cure bronchitis, asthma, coughs, colds, hay fever and croup.

The after effect is the worst about getting drunk—headache, also, about getting married.

A girl likes to have some one to make her blush just to convince people that her complexion is the real thing.

ITCHING, BURNING SKIN DISEASES CURED FOR THIRTY-FIVE CENTS.—Dr. Agnew's Ointment relieves in one day, and cures Tetter, Salt Rheum, Scald head, Eczema, Barber's Itch, Ulcers, Blisters and all eruptions of the skin. It is soothing and quieting and acts like magic in the cure of all baby humors, 35 cents. Sold by A. E. SHAW'S Pharmacy.—47

Queen Mary is doing her utmost not to allow the loss of their grandfather to overshadow the lives of the younger children. King Edward saw much of them. He often told them stories and joined in their games, and they have the happiest recollections of him. Their mother wants them to retain these memories.

BETTER WITHOUT A STOMACH than with one that's got a constant "hurt" to it. Dr. Von Stan's Pineapple Tablets stimulate the digestive organs. Let one enjoy the good things of life and leave no bad effects—carry them with you in your vest pocket—in box, 35 cents. Sold by A. E. SHAW'S Pharmacy.—48

SMALLEST MAN IN CANADA DEAD

Lockeport, N. S., May 27—Edward Hupman, the smallest man in Canada, is dead here. Hupman was thirty-two years of age, stood two feet nine inches and weighed thirty pounds. He was frequently on exhibition at Halifax fairs.

ACADIA WON THE INTERCOLLEGIATE

St. Stephen, May 27—At the Intercollegiate meet here today Acadia won with 55 points, U. N. B. second with 25 points and Mt. Allison third with 11 points.

AN EXCELLENT REMEDY FOR ALL BABIES

Baby's Own Tablets are an excellent remedy for babies of all ages. They cure all stomach and bowel troubles; make teething easy; dispel worms; and make baby fat, good-natured and healthy. They are sold under the guarantee of a Government analyst to contain absolutely no opiate or narcotic, and thus they can be given to the new born baby with perfect safety. Mrs. Benoit Martin, Avignon, Que., writes: "Baby's Own Tablets are an excellent remedy for babies and should be in every home where there are young children." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

REALIZING WHAT'S WHAT

The United States are waking up to the fact that Canada is fully competent to conserve her natural resources for the use of her own people. This was when popular opinion in the United States tended to regard Jack Canuck as a hewer of wood and a drawer of water for Uncle Sam. But certain expressions of opinion of a contrary sort that are now continually cropping up in the American press show that this attitude towards Canada is fast giving way. Here is a sample from the editorial columns of the American Forestry Journal:

"Canada is measuring her timber resources and preparing to protect them by progressive and drastic measures against exploitation for the benefit of wasteful foreign countries, including her next door neighbor. We cannot look to the north for our salvation. We must husband all our remaining resources and plant trees wherever they can be grown more profitably than other crops, in order that our own future may be assured. This is the only way. Canada has not the resources for her own needs and ours too, and she is sufficiently wide awake and intelligent to guard her own. The only way that our timber resources and Canada's can be made inexhaustible is by the application of the highest scientific knowledge and the broadest common sense."

Perhaps the most notable point is that Weston walked from coast to coast without getting run over by an automobile.

The weather prophets may not know it, but nothing is surer to bring warm weather than the announcement of the reduction in the price of coal.

The largest gold producing country is the Transvaal, where the output increased from eight million dollars in 1909 to one hundred and thirty-three millions in 1907.

The use of explosives has been prohibited in all coal mines in Australia—Hungary. This shows a willingness to save life even at the expense of a few cents per ton for coal.

The average woman can bluff any man, but when it comes to bluffing some other woman—well, that's another story.

NEW BRUNSWICK OPENS MARKET

British Financial Journal Cites Instances Where Western Enterprise Was Not Necessary for Booming Products

In the Canadian Mail, a financial journal published in London, Eng., for the guidance of British investors in Canadian enterprises, an article appears which remarks upon the development of the potato trade between New Brunswick and Cuba. The article follows:

The expansion of Canadian trade is so frequently associated with Western enterprise and industry, that it is a surprise to learn the part that New Brunswick is playing in opening up new markets for the Dominion. Largely as the result of a subsidy granted by the government last year, a regular steamship service has been established between St. John and Cuba and, in consequence, New Brunswick has practically ousted the United States from the Cuban potato market, and now has it under control. To Cuba alone New Brunswick now sends six times the quantity of potatoes exported to the whole of the British West Indies. It is said that while last year 40,000 bushels of potatoes from the United States were sold in Cuba, this year scarcely a barrel has been received there from the United States, on account of the monopoly of

King George relies upon the navy. He served thirty-three years in it, and his confidence in the loyalty and efficiency of England's sailors is based upon personal knowledge.

The fish are beginning to bite. Then comes the turn of the mosquito.

MAKES ASTONISHING CURES

Mi-o-na Tablets Cure Dyspepsia by Promptly Removing the Cause, or Money Back.

There is just one way to cure dyspepsia and stomach disorders, trivial or serious and that is to tone up or put energy into the stomach walls, so that they will be able to properly churn or mix the food.

Mi-o-na tablets quickly arouse the stomach from its inaction and in a short time it is able to do its work properly.

Harry Dodd of Bridge Street, Hastings, Ont., says: "For seven years I had suffered and spent much money doctoring, but all to no avail. I could eat but very little, as the food would ferment and sour, making gas, which caused serious heart oppression. I was in constant misery, sour gas would belch from my stomach. I was languid and weak and had no ambition. I did not feel like going anywhere or seeing anyone. There was a constant dull pain in the pit of my stomach. I was unable to sleep, was nervous, restless and would awake more tired than on going to bed. I tried Mi-o-na and soon found relief, and in less than six weeks Mi-o-na had completely cured me."

T. J. Durick the druggist, sells Mi-o-na tablets at 50 cents a large box, under a rigid guarantee to do all that is claimed for them or money back.

Did you ever hear any one say they could not get good coffee except in the States?

I have heard it, scores of times, and it's one of the reasons that made me decide to go into the Coffee business.

Of the Americans who visit us in summer, hundreds take home a supply of Red Rose Tea because they have never used such good tea before. I determined to put up a coffee that would make for itself just as good a reputation. It has not been easy, but I am sure I have succeeded.

Estabrooks' Red Rose Coffee, put up in sealed tins is—well, it's good coffee. You and your American friends will say so.

A good combination is Estabrooks' Coffee for breakfast and Red Rose Tea for other meals

Estabrooks' RED ROSE Coffee

ORDER A TIN IN TIME FOR BREAKFAST

SHINGLES

B. C. easily leads in the production of shingles, producing 724,652,000 of the value of \$1,391,306. Its nearest competitor is Quebec, which produced 406,440,000, valued at \$849,787, and then follow, in their order, Ontario with a production of 223,533,000 valued at \$461,155; N. B., 109,913,000 worth \$325,865; N. S., making 33,141,000, valued at \$69,370; Manitoba, turning out 1,125,000, worth \$3,150, and Saskatchewan, which produces 592,000, valued at \$1,363.

The total production for the Dominion was 1,499,396,000 shingles, the aggregate value of which was \$3,101,996.

LATHS

In the manufacture of laths Ontario takes first place with 263,241,000 to her credit, valued at \$612,856. Little more than half that number, viz., 138,991,000, is made by her nearest competitor, New Brunswick, the value of whose product is \$286,088. Quebec made 92,914,000 laths worth \$189,076; British Columbia 86,862,000, worth \$208,255; Nova Scotia, 62,638,000, worth \$136,893; Saskatchewan, 18,477,000, valued at \$40,173; Manitoba, 7,870,000, at a value of \$10,200 and Alberta 1,069,000, worth \$3,584.

The total number of laths manufactured was 671,662,000, of the value of \$1,497,125.

RAILWAY TIES

During the year the railways purchased 13,978,416 cross-ties for which they paid \$5,281,685. Of these the steam railways (47 in number and having a total of 25,772 miles of track) bought 13,
