Adventure Here After Rough Trip

The S.S. Adventure, Capt. Couch, arrived to-day from Sydney, after a very stormy trip, which occupied three days. Yesterday the weather was boisterous and last night was an exceptionally rough one at sea. A terrific North East gale was experienced with mountainous seas which continually swept the steamer's deck, and the ship was knocked about badly and her cargo shifted. The Adventure brought a coal cargo to A. J. Harvey & Co.

Trains Delayed.

The local which was to arrive in the city at noon to-day had not left Charlottetown at that hour. She was waiting for the regular, which left here this morning to arrive as the latter carried a plow to clear the way. It is expected the road will be sufficiently clear to allow the local to reach the city at 8 p.m.

The incoming express left Glenwood at 9:40 a.m. to-day, and as the line from there is not seriously affected by the storm, she will likely reach the city about midnight.

The New Pantomime

ROBINSON CRUSOE.

To-night will see the great new pantomime Robinson Crusoe. There will be lots of fun, Jack Rossley will play the part of man Friday, and every one knows what that means. All new music, scenery and beautiful costumes, there are fifty-five in the show. There will be sailors hornpipes, reels and many novelty dances. Miss Louise Arkandy, the young English novelist, has another good song; this young lady is very popular, and likes to respond to encores each night. There will be several pretty novelties introduced. When Crusoe leaves home, the great sea scene, where Crusoe is thrown up on the beach; the Coral reef, with its tribe of Savages; the rescue party; Robinson Crusoe returns home, all the merry makers give welcome. This will be a great Pantomime.

Work of the Storm.

Yesterday a gale of northeast wind accompanied by a blinding snow storm raged in the city, and as a result after a very short time piles of snow were lodged in the principal streets. The street car service was interrupted and very few persons ventured outdoors during the afternoon, as from 2 o'clock till 6 a regular blizzard prevailed. The storm was severely felt all over the country, which caused the coastal boats to lie up. The telegraph service north was considerably interrupted, but up west conditions were not so bad, and to-day the lines are in fairly good condition.

The Far East.

Special to Evening Telegram.
BERLIN, To-day.
Germany, America, England, Japan, France and Holland are mutually sounding each other with a view to a mutual guarantee of the status quo in the Far East and the Pacific Ocean. Since the close of the Russo-Japanese war Holland has been uneasy as to the future of the Dutch Indies, the vast trade and wealth of which are most important to the Netherlands. The Dutch statesmen have been seeking means to insure preservation of the status quo in the Far East as they realize the impossibility of building a sufficient naval establishment to defend their possessions in the Indies. France and England are said to regard the plan with favour. Germany is not disinclined to part in it, but is sceptical as to its success. President Wilson and Secretary Bryan are said to have received the hint sympathetically and are said to be considering the scheme an excellent solution of the situation in the Far East. What is said to be the real obstacle to the establishment of the entente will be the difficulty of getting America and Japan to join in the same convention and this may wreck the scheme before it emerges from the present indefinite suggestions.
