> God's in His heaven, All's right with the world.

London, Thursday, Sept. 1.

THE St. Thomas Weekly Times is 20 years old. "It's getting a big boy now."

Every one of the twenty odd M.P.s giving adhesion to the Methodist Church returned to the new British Parliament is a supporter of Mr. Gladstone. British Methodism is pretty solid for Liberalism.

THE Ontario Bureau of Statistics is collecting information in regard to strikes and lock-outs in recent years in this Province. As the information is for the use of the public, the bureau should have the assistance of every person who can render aid.

GLADSTONE has been upset. A frisky steer succeeded in doing what a great political party failed to accomplish. But not for long. The Grand Old Man, it seems, was in great danger of being gored by the infuriated brute, but it was just his luck to escape material damage, and in due course, let up hone, he will be himself course, let up hope, he will be himself

IT is probably true that Mr. Labouchere, M.P., the editor of Truth, did not want to enter the new Liberal Cabinet in Great Britain, preferring the more responsible position of editor of an important public journal. He made an issue, however, of a very important character at a time when topics threatened to become dull and unin teresting, and he has managed to get an advertisement for his journal. Leave abouchere to look after these essentials to lively journalis

A VACANT JUDGESHIP. We understand that the friends of Mr. W. W. Fitzgerald, barrister, of this city, are using earnest efforts to have him appointed county judge of the county of Peel. There are strong local competitors for the office, but Mr. Fitzgerald is alleged to have the inside track.

FAIR PLAY FOR A GIRL Has there not been a trifle too much trial by newspaper in the case of Lizzie Borden, accused of murdering her father and stepmother at Fall River, Mass.?

Newspaper reporters are valuable public They are often of immense servants. service in unearthing crime and securing the punishment of criminals. When, how ever, a reporter invents and has printed a manner likely to bring hurt to the prisoner,

manner likely to oring nurt to the prisoner, it is time to protest.

The proper view of justice is that every person is to be held innocent till he is proved guilty, but in this famous Fall River case, a good deal of the presumption appears to have been in the other direction.

Some writers seem to have reached the ne writers seem to have reached the conclusion that the accused should prove herself innocent or be adjudged guilty. Common decency, to say nothing of justice, should dictate a contrary course.

THE CHOLERA AND THE LONDON GARBAGE QUESTION.

The members of the London Board of Health every now and again profess willingness to tackle the removal of garbage question, but the Board should not weary in well doing. At one time, it got the length of making a serious proposition on the subject to the City Council, which has to provide the funds for its operations, but as the aldermen were not at that time seized of the importance of establishing a complete system of co-operative cleansing, the garbage citizens have yet with them-unless they have been moved to get rid of it individually. Now that the cholera is getting alarm.

ingly near, and is likely to visit this country next year, if not during the present fall, the Board of Health have appointed a com-mittee to consider the matter. We desire to see the garbage of the city carried away to see the garbage of the city carried away and disposed of, under municipal control, but we cannot agree with those who think that any half-hearted, peanut system will be a success. To appoint a coavenger, and let him make his own collections of money for work done at the request of citizens who wish to keep clean that any half-hearted, peanut system will be a success. To appoint a ceavenger, and let him make his own collections of money for work done at the request of citizens who wish to keep clean their surroundings, would certainly serve to make a beginning, but it would be far from an effective service. What we need it is a system somewhat similar to that which has been inaugurated in Toronto, Hamilton, and other municipalities of about the size of London. We need and ought to the variety of the business and residential portions of the city may be removed once a week during of the summer season and once every two or three weeks in the winter months. It cannot, in justice to the citizons, be a partial system, subject only to the whims of the owners or tenants of property. The object which the Health Board has in view, and which by law it is appointed to effect, is the preservation of the public health. We put it to them, we put it to the aldermen, whether the public health will be conserved if offensive kitchen end other refuse is to be permitted to lie and rot around some at time, because the occupants do not care to pay the scavenger to cart it off. It may happen—wee know it has happened—that the health of families who have maintained scraphlously clean back yards has been prejudiced by the carelessness of their

There are strong local competitors for the office, but Mr. Fluggerald is alloged to have the inside rest.

THE NORTHWEST "GRISIS."
The Northwest Territories, in which a political crisis is now in progress, is a log country, with great possibilities. It is made up of the following divisions.

39,555, and Sankatchewan, 107,002—a total of 202,727 square miles. There are only shour 170,000 inhabitants in this vast territory, but that it is moving forward to fallegislative rights and to a division-phenic of the control of the cont

plots. But that it can be improved upo no one will deny. We wish to guard against cholers or any other epidemic disease, and we cannot do better than cease talking about halfway, non-efficient measures, and boldly adopt a course that cannot fail to be in-valuable in adding to the healthfulness of our surroundings at an expenditure far from being commensurate with the advantages to be derived. The Board of Health will have the support of the ADVERTISER and story highly prejudicial to a girl practically of every intelligent taxpayer in the city if of every intelligent taxpayer in the city if the state of foot an effective garbage removal system at the earliest possible moment manner likely to bring hurt to the prisoner, sist the footing of the bill when the matter is placed before it in its right light.

TOPICS OF TO-DAY.

An idea of the rapidity and terrible certainty with which cholera travels is conveyed in the information that the pestilence originated in India, where it is indigenous, and, carried by Mahometan pilgrims into Central Asia along the line of the route to the holy city of Meshed, in Eastern Persia, was first reported in Afghansten and Turkestan last spring. It entered Russia at the port of Baku, on the Caspian Sea.

The New York World observes: "That The New York World observes: "That was a strange accident by which Johann Bednarz, a manufacturer of fireworks in Pressburg, Hungary, recently lost his life. Several thousand rockets which were stored in his house and which were loaded with dynamite exploded, wrecking the house completely. The body of Bednarz was found beneath the ruins. He left a widow and \$22 children to mourn his loss and continue the business of filling skyrockets with dynamite.

Demme studied ten families of drinkers and ten families of temperate persons. The ten families of drinkers included 57 The ten families of drinkers included 57 children. Of these 25 died in the first weeks and months of their life, 6 were didots, in 5 a striking backwardness of growth was observed, 5 were affected with epilepsy, 5 with inborn diseases. The ten sober families had 61 children, five only dying in the first weeks; four were affected with curable diseases of the nervous system; two only presented inborn defects. The remaining fity—81.9 per cent.—were normal in their constitution and development.

good work without at least three or four of a majority. Legislatures have been known to work with a majority of one, but not for long.

Mr. Gladstone is a courteous, not to say magnanimous, foeman. When, after that at division before the resignation of the Tory Ministers there was hissing of Mr. Balfour, the Liberal leader broke in with loud and spirited "Hear, hears," and consequently expressed his disapproval of the treatment accorded Lord Salisbury's spokesman in the Commons.

DROPPED AT THE DRAW!

While Traveling Nearly a Mile a Minute.

nashup on the Hudson River Ratiroad —Three Men Meet Instant Death— Three Men Meet Instant De Several Other Injured.

NEWBURGH, N. Y., Sept. 1.—The fast mail train on the Hudson River Railroad met disaster at Newburgh bridge at 10 minutes past 6 o'clock this morning—the scene of the frightful accident nearly twenty years ago. The draw had been opened to let the little steamer Young American pass through, and was being closed when the train came northward. A gap of several feet remained when the engine touched the draw, going at the rate of nearly a mile a minute.

The engine jumped the gap, but the rear end of the tender dropped through to stop the progress of the train. Then the mail car, crashing into the tender, pushed it against the locomotive. The rear end of the locomotive and the forward end of the mail car were splintered.

against the locomotive. The rear end of the locomotive and the forward end of the mail car were splintered.

The engincer, Joseph Owens, of Albany, and the fireman, Redward Best, of East Albany, were crushed under the forward end of the car and killed instantly.

There were two clerks in the mail car. J. H. Kane, of Cohoes, was forced upward and landed on top of the debris of the mail car. He was instantly killed, and his body was shockingly mangled. The other clerk was not injured.

After the mail car came two baggage straight and the hold of the first baggage car. J. H. O'Neil, a trainman, was in the rear part of the same car. Todd and Hitchcock were thrown against the end of the car, the former was hurt about the head and bruised about the body, but was able to walk to the Newburgh station and send off his dispatches regarding the accident. Hitchcock lad one finger cut, otherwise he escaped uninjured. O'Neil was not hurt.

German Syrup" Those who have not used Boschee's Ger-

A Throat and Lung Specialty.

man Syrup for some severe and chronic trouble of the Throat and Lungs can hard ly appreciate what a truly wonderful medicine it is. The delicious sensations of healing, easing, clearsensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while. This is as far as the ordinary cough medicine goes. Boschee's German Cause is discovery a great Throat.

Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, years there have been sensitiveness, pain, coughing, spitting, hemorrhage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man vet if you take it.

## Best Advertising!

After all it must be admitted the goods sold by the advertiser is his successful advertisement. We find the candid expression of those who buy our crothing to others of their satisfaction with it do more for us than any self praise we can possibly bestow. Yet it is necessary when so many are clamoliny for trade and using such enticing devices to take in the unthoughtful for us to show what advantages the manufacturer CAN and DOES give in QUALITIES and VALUES. For remember the manufacturers who stamp with their own name the goods they make and sell directly to the consumer certainly MUST give BEST values and surely dare not offer anything but the most reliable in quality. We put particular stress on these two points, because they are the vantage ground we occupy above all others.

Bearing these two points in mind, you will see what we offer you at this season in genuine bargains. Our Men's Furnishing Department is the most complete

in the country, as we are direct importers.

The Clothiers AND FURNISHERS.

TO THE FRONT AGAIN Keene Bros. are effering for the next thirty days some of the bes bargains in Furniture that Lendoners have ever been favored with. Mus be cleared out to make room for fall purchases. Now is your chance. Take advantage of it.
