The Oil Springs council has decided to Kidney Disease Developed Into Dropsy were to receive \$300. -After Fifteen Years of Suffering Cure Was Effected by

DR. CHASE'S KIDNEY-LIVER PILLS

Dropsy is a natural result of neglected kidney disease. When the kidneys become deranged uric acid is left in the blood, and the blood becomes from watery and vitiated. Flesh and weight gradually decrease and strength is slowly exhausted. Swollen ankles and legs are among the first indications of dropsy, and this symptom arises from the fact that the system is filled with water that should pass off by way of the kidneys.

There is probably no ailment which

leads to such dreadfully painful and Policeman Jarvis acted as best fatal diseases as derangement of the kidneys, and consequently the good which Dr. Chase's Kidney-Liver Pills do in checking kidney disorders and preventing dropsy, Bright's disease. diabetes, etc., can never be-estimated. SCARLET FEVER SHOULD BE TREATED LIKE SMALLPOX

Dr. Hodgetts Says the Disease ing reason to suspect that any person in his charge has scarlet fever is to report the same to the health officer of Is the More Serious One.

The New Regulations Enforce Use of to be isolated until they have developed Isolation Hospital.

Dr. Hodgetts, of the provincial health Dr. Hodgetts, of the provincial health in a separate tent. No person is to be allowed to leave a house where the fesaturday afternoon and attended a ver existed until the place, with the meeting of the board of health. The clothing of the occupants, has been prevalence of scarlet fever in many thoroughly disinfected, and where a prevalence of scarlet fever in many parts of the province has given Dr. examination is to be made of the chil-Hodgetts much work to do, and it was dren attending the school until all danwhile on his return from Port Stan- ger from their exposure is past. Where ley that he remained over here for a children remain away from school, the few hours and gave the board some information about the new regulations their homes. The minimum period of concerning scarlet fever and diphtheria. In almost every section there has all along been a looseness on the part of physicians in reporting to the boards of health the existence of fever cases, and without placarding and isolation, the disease has frequently spread alarmingly and caused numerous deaths. To prevent this as far as possible is the object of the provincial board in mak-

MILD TYPE OF FEVER.

Dr. Hodgetts was at Port Stanley, ple would approve of the isolation plan inquiring into the state of affairs there and consulting with the village author-ronto, the isolation hospital was actualities as to the best method of stamping ly forced upon the city, and it was now out the disease, which has been so so popular that it was not large enough common there for some time. He told to accommodate all the patients. Peothe London Board of Health that the ple were anxious to get the first case scarlet fever all over the province was out of their homes, for they were taught of a very mild type—so mild in many by experience that this was the most gathered unexpectedly at their home. During the evening an address was read by F. C. Pecover, of Woodstock, and Mr. Hart, the Sunday school superintendent, presented Mrs. Murray with a beautiful oak rocker and table. Mr. C. Moon read another nicely-worded address, and Councilor Mackay made Mr. Murray the recipient of a pipe.

instances that its existence was not reported to doctors. These cases, he said, were the source of much danger, and were frequently the cause of more serious ones. Dr. Hodgetts told of the experience of Peterboro some months ago, when fourteen deaths occurred in three weeks, five of them being in one family. Inquiry there showed that the polygonian control of the chief causes of the prevalence of scarlet fever in London had been the neglect of the physicians to reported to doctors. These cases, he said, were the source of much danger, of the chief causes of the prevalence of scarlet fever in London had been the neglect of the physicians to reported to doctors. These cases, he said, were the source of much danger, of the chief causes of the prevalence of scarlet fever in London had been the neglect of the physicians to reported to doctors. These cases, he said, were the source of much danger, and were frequently the cause of more serious ones. Dr. Hodgetts told of the experience of portation of the chief causes of the prevalence of the chief causes of the prevalence of the chief causes. Councilor Mackay made Mr. Murray the recipient of a pipe.

By the death of John A. McKenzie, on the 19th of March, East Nissouri lost one of its stalwart young farmers. He was the eldest son of Murdock and Ann McKenzie was a helpful son, a loving brother, a kind neighbor and an active Christian.
