## MORSE ICE POOL WORKINGS TOLD

Evidence of Market Manipulation Given -\$5,000,000 Dropped in Second Beal.

New York, Oct. 24,-"Morse, the yeoman, and how he made cold prices in Wall street," might be the title of a Lawsonesque booklet built on today's session of the trial of Morse and Curtis for criminal mismanagement of the National Bank of North America. Most of the day was given over to evidence showing Morse's manipulation of the market when, having led a number of friends into a pool for operations in ice stock,

he was engaged in trying to force ice up to 110, a figure it never came anywhere near reaching. The other Gevelopment of the day was the profit of \$30,000 for the president OLD BOSNIA NEW of his American Ice Company, Weslev Oler, who was getting a salary of \$24,000 a year, and how he had "carried" him-with the aid of the Bank of North America-to the extent of a loss of \$141,000 from that bank for the purchase of ice stock at 71. Forced to Take Stock.

Morse told Oler that the bank had 2,000 shares of ice when Morse asked Oler to buy at 71, telling him it was sure to go up. Oler said he did not want any more stock, as he was in debt to the bank. Oler remonstrated further, telling nearly out of debt he was and how stock?"

#### Dr. A. W. Chase's Ointment

Piles or hemorrhoids are among the most common as well as the most torturing ailments that afflict humanity. The keen distress caused by the itching, especially when the body gets warm, is almost beyond the powers of

description. Mr. J. S. McLaren, farmer and contractor, Tiverton, Ont., writes: "I was troubled for twenty years with itching piles, during which time I suffered a great deal. They would bother me most when I would get warm in bed. I would wake up at night and lie for hours suffering the keenest agony, without being able to obtain relief. I cannot imagine any greater

distress than the tortures of piles. "Dr. Chase's Ointment gave me relief from the first application and now I am entirely freed of this horrible disease. For a time I would occasionally feel a slight return of the itching, but applied the ointment freely each time

until the cure was thorough." Mr. G. W. Cornell, with the Shaw Milling Company, St. Catharines, Ont., writes: "For six years I was the victim of itching, protruding piles and was in dreadful agony day and night. Doctors were unable to help me. My druggist recommended Dr. Chase's Ointment, two boxes of which completely

Not much more than a quarter of a century ago, after Turkey had done almost everything to Bosnia that it could do, the powers of Europe told Austria to move down there and see what she could do in the way of straightening out things.

When the Austrians came along the mountaineers playfully cut off the soldiers' hands or ears and, sending them to the commandant of the nearest post, invited him to come and get what was left.

Now, after a quarter of a century, people are wondering what has happened that Bosnia should have a chance at self-government, and are been at work that would entitle it to have a parliament of its own. It is the result of the administration of an impoverished land and people by the Austrians under entirely new methods. The system has been working out with the world scarcely knowing a thing about it.

## CHURCH WORRIES OVER SOCIALISM

England Blames Heartlessness of the Rich for Its Growth.

London, Oct. 25.-Every week furnishes new evidence of the grave concern with which the church views the growth of socialism in England, and the severity with which it regards the heartlessness of the rich as the cause for this socialism. The most energetic of these clerical critics is the Bishop of London, and in inducting a vicar of a fashionable Mayfair church, whose last charge had been a church of the poor at Hoxton, the contrast between the two neighborhoods suggested the bishop's theme. He asked why it was that God, although he loved the child born in Hoxton as much as the child born in Mayfair, gave such an unequal lot to the children whom they were

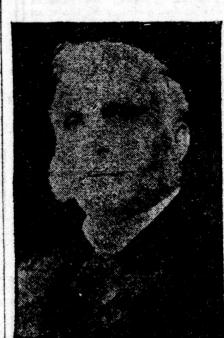

taught he equally loves. There were those who would apply the socialistic remedy, but he could not, as bishop, sanction the whole power of the church on behalf of an economic solution which might be wrong. If on economic grounds they rejected that solution of the problem, what was

the gospel for the rich? There should be justice for the poor man who got is 6d for making an article sold for a guinea.
