TICKET-OF-LEAVE LUNATICS.

The Merkt murder in Toronto has called public attention once more to the care of the insane. The limelight has been shifted from Dr. English to "Lancashire Life and Character": Dr. Clarke, the superintendent of the his institution are allowed to make living." Unlike some officials, who resent being asked awkward questions, Dr. Clarke has frankly and courteously replied that from twenty to twenty-five patients are allowed ticket-of-leave in order that they may make brief visits any damages to that man you ran over. to their homes. This admission has stirred up the good citizens of the Queen City; even the police are uneasy. A CONSCIENTIOUS DECLARATION. Inspector Duncan exclaims, "Just think of crazy men walking the city streets!" He shudders with apprehension, and until April, and from August until Decity have added one more variety to their list of night fears.

It is a possibility that a supposedly gentle lunatic might suddenly become dangerous and homicidal in his desires; the Merkt case proves that, but a certain type of New York millionaire. such a development is very rare. We cannot remember a similar murder, that it will go on a screen. Paul Bourget and it would seem a genuine hardship told the world about that. And I heard if the asylum authorities had to shut the other day another thing about him. up for the rest of their days a number the three-million dollar palace of one of of inoffensive, weak-minded people. these millionaires. The gentleman stopped Inspector Duncan and the citizens of before an enormous mirror and said: Toronto ought not to become panicstricken. All the crazy people in the city are not incarcerated in the asylum, and there is as much danger from majordomo, he said: 'Don't let the chilsudden outbreaks on the part of the with, Maurice." seemingly sane as of the gentle victims of aberration and hallucination.

At the same time the public ought to demand extreme carefulness on the be scared into stupidity part of the asylum doctors. Was this kind of teacher. man Merkt under thorough inspection from time to time? Recent developments in our public institutions have given rise to a feeling of uneasiness that a condition of laxity prevails in the care of the insane. We hope that a thorough investigation will be made Into the ticket-of-leave system. Public safety demands it.

SIR JAMES WHITNEY LIBELS CANADIANS.

"Blazing indiscretion" is a mild phrase to describe Sir James Whitney's comments on imperial preference. He has had the audacity to inform the British public through the columns of The Standard that Canada will break away from the Empire unless the motherland satisfies our greed for gain by granting us commercial favors in the way of preferences. Sir James even went so far as to say: "We want something done; something has got to be done, or the Empire will be a recollection." Wasn't this a fancy phrase to in England and by their correspondents issue from the Whitney mint? The British Empire "a recollection"! But it British Empire "a recollection"! But it maries of certain utterances by English was a phrase that arose from the editors, one who did not know the coninflated Premier's heated brain. We are ditions in this country would imagine that sure that all Canadians, irrespective of party, will hold a wrathful "recollection" of this insensate speech. What comes for a revision of the tariff that revision shall be downward and not uptain of us as a nation if, as Sir James would have them believe, we are willing to sell our patriotism for "a handful of silver," for the sordid consideration of a preference? No one in Canada is worrying about any such thing. We are getting along beautifully without any protection, and if England him the wisdom of caution. should decide to remain a free trade country there would be no protest from this country, and our love for her and our devotion to the Empire would remain just as leal and true as ever.

No such silly speech has been made in England by a visiting Canadian in many years, as this illustrious specimen of vocal nonsense. We protest and will be acceptable to the majority of that a great injustice has been done to the people of Ontario by their leading representative. MONONONONONONONONONONONON The Story of

John Brown

[From the Chicago Record-Herald.] <u>rokokokokokokokokokokokok</u>

When former President Roosevelt stands before the gathering of Kansans and guests from other states at receiver on the continent; New York the dedication of the John Brown is the largest city, and Toronto has Park in Osawatomie, as the chief speaker, his words will be listened to with more than ordinary interest by the whole nation, as well as by those within the sound of his voice. For there is yet a division of opinion about the attitude that history should take toward the man whose raid on Harper's Ferry arsenal in 1859 did more than anything else, perhaps, to precipitate the civil war. In the south something of bitterness has been expressed that Col. Roosevelt should be willing to take part in a celebration which is in honor of the would-be liberator of slaves.

Brown was born in Torrington, Conn., May 9, 1800. One of his ancestors, Peter Brown, was a passenger in the Mayflower; from other forbears he had Welsh and Dutch, as well as English, blood in his veins. His father was a tanner, and the son learned that trade, after a short period of study for the ministry. The family in 1805 removed to Hudson, Ohio, and there John Brown married early, becoming a householder at the age of 20. He was successively a land surveyor, a speculator in land and a wood dealer. In 1849 he retired to the Adirondack wilderness, to become a farmer at North Elba, the town in which his dust now rests, and in which a colony of negroes had been established by Ger-

From his father John Brown acquired enti-slavery sympathies, and as a boy he became a passionate adherent of While living in the abolition cause. Ohio, and later while postmaster at Randolph, Pa., he aided fugitive slaves and formed several crude projects for making violent warfare on the slaveholders. For several years he lived at Springfield, Mass., and there formed his "Virginia plan," which was back of his Harper's Ferry raid, for establishing an armed camp in the Allegheny Mounains as a refuge for fugitive blacks. In October, 1854, five of Brown's sons settled in Kansas, on claims about nine miles from Osawatomie, and the father followed the next year. It may be pertinent to remark there that in one respect John Brown merits the unqualified approval of former President Even the brightest boy in the class can Roosevelt. He had twenty sons by two history probably records no more striking example of selfsacrificing attachment of a family to the idea of its head. Brown's sons, twelve of whom grew to maturity, were devoted to their father's ideas, and two
