competent judge, who does not have to accept the testimony of any wholesale man about the could be completed. about the quality. Consequently stores handling our teas say they double their business.

Why is it others engaged in the tea trade try to bribe our agents to find out the secret of our famous mixed teas?

Twenty to Forty per cent.

THE REASON IS.

When a man finds his customers dissatisfied with the teas he sells, it is natural for him to resort to any means to keep his trade. The only successful way found, so far, is to keep James Laut's familiate this establishment as ous teas in stock for your customers.

PROPRIETOR. All diseases of the respiratory organs treated by Medical Inhalations," combined with proper contutuonal remedies.

Permanently established for the cure of all the various diseases of the Head, Throat and Chest, viz: Catarrh, Throat Diseases, Bronchitis, Asthma, Consumption, Catarrhal Ophthalmia (Sore Eyes) and Catharrhal Deafness; also Diseases of the Heart.
Our system of Practice consis.s in the most improved Medical Inhalations, combined with proper Constitutional Treatment. Having devoted our time, energy and skill for the past fifteen years to the treatment of the various diseases of the HEAD, THROAT AND LUNGS, (During which time we have seccessfully treated) HEAD, THROAT AND LUNGS, (During which time we have seccessfully treated over 30,000 cases), we are enabled to offer the afflicted the most perfect remedies and appliances or the immediate cure of all those troublesome afflictions.

afflicted the most perfect remedies and appliances or the immediate cure of all those troublesome afflictions.

CATARRH.

As we have seen in tracing the relation to Nasa Catarrh and throat diseases to consumption, there are times, perhaps days, or even whole weeks together, when the affection gives little or no annoy nnce, and the patient flatters himself that it has centirely passed away, when a sudden cold or other cause of irritation occurs, and the progress of the disease is materially hastened. At this season of the year, not unfrequently, the disease becomes apparent, and admonishes the patient of the terrible future which must follow if the inflammation is not speedily allayed. Many there are who endeavor to convince themselves that the evil is not of any magnitude, and will soon pass away with the special cause of the irritation; but experience will prove to them the fearful error as it has to thousands who have preceded them to that "bourne from whence no traveller returns."

No one, therefore, who is afflicted with nasal catarrh or throat affection is safe while it is suffered to exist. Often slight eauses give rise to serious complications, for example: The Uvula, or pendulous organ which hangs down from the palatine arch, just over the roots of the tongue is very apt to get inflamed, and its parts becoming relaxed, it stretches out lengthwise, so that its extremities sometimes rest upon the tongue, touching it and causing an unmananageable cough.

The cause was trivial at first, and micht have been quickly removed. How important itis, therefore, that before the patient enters upon any course of medication a careful examination be made by one competent to deede upon the nature and extent of the disease.

Inhalations are applicable to all diseases of the resistance, and rest, hereaf diseases.

Guitean's Only Hope Washington, June 9-Reed to-day seured Guitean's signature to several affidav-

its which he proposes to use in further proceedings. He declines to say anything with reference to these proceedings. Guiteau spends most of his time in reading the bible spends most of his time in reading the bible and a religious work given him by a Baltimore gentleman. His mind is bright and he is able to argue the case with considerable legal sharpness. Last evening he said Reed had been wrong in his recent moves in the case. Nothing can be done about it now, even if the record is wrong, for it has been ruled upon and the judgment completes it. The question of jurisdiction has been settled and there is nothing left of that question. The only hope is in the president. I have told Reed to go to him and let all other things go.

OTTAWA, June 9.—The meeting in the Canadian institute last night was without loubt the stormiest ever held in the city, and is to-day the general topic of conversation. At the close nearly two hundred excited individuals took possession of the platform and then a general row began. Several persons had their heads bruised, but none were seriously injured, the crush being so great that there was really no room for fighting. The whole trouble arose over a stone being thrown on the platform whilst Dr. St. Jean was speaking, and which fell at Mr. Mackintosh's feet. The latter picked it up and put it in his pocket, when one Campbell advanced and demanded that it should be returned.
