Three Feet of Snow at Albany.

Albany, N.Y., March 13.—The Senate and Assentily have again adjourned for another twenty-four hours. There was no quorum in either house. In the Senate there were seven members present against eight last evening, and in the Assembly nineteen again. The legislators cannot reach Albany from any direction, nor can those present make their escape. The New York Central, the Albany and Suguehanna, the Hudson River and West Shore, and the Boston and Albany are completely blocked. Even the belt line between Albany and Troy is blocked. Over three feet of snow on the level has fallen here and is drifting terribly.
