These old time notions of our Free Traders—to the effect that these Provinces can do nothing to help themselves—will have to "go," as mediaval astronomy has gone before.

A Live Senate.

It is probable that a majority amongst us, unaccustomed to expect anything like living power and eloquence from our Senate at Ottawa, have given themselves up to the conviction that to make the "Upper Houses" a body worthy of its name and with influence on public opinion to correspond, is something beyond our power to do. And yet, when we consider what the United States Senate is and how high it stands as a moulder and maker both of legislation and of public opinion, we might well be encouraged to hope

She is a native of Pennsylvania and has lived in Kansas twenty years, eighteen of which have been spent at Owkalcosa. She is the mother of two children, a son and a daughter, both grown. Mrs. Lowman is Republican in politics and a Presbyterian in religious faith. That she will fill the Mayor's chair acceptably is universally conceded. She is fitted for it in every way, in business training and executive ability.

appearance Mrs. Hamilton is a fittle addition, with dark blue eyes and dark hair that persists in assuming pretty wavy lines over her head.

Mrs. Sadie Baisley was born in Ohio thirty-six years age. The past fitteen years she has lived in Oskaloosa. Mrs. Balsley is politucally a Democrat, religiously a Methodist. She has only one little daughter. When the reporter called Mrs. Balsley was in the depth of house cleaning. She kindly came in to receive here aller in a cosy sitting room floored with sunshine, frageant with flowers, and cheery with the song of birds. Her height is slightly above the medium, with dark hair and eyes and rosy cheeks. Her waivy hair was coiled neatly at the crown. Her appearance is such that you would be willing to trust to her judgment even in weightier matters than helping to rule a city.

Mrs. Mattie Josephine Goldenspent twenty-two years of her life in Topeka and the last eight in Oskaloosa. She was born thirty-one years are at Independence, Mo. Politically she is a Democrat, religiously a Methodist. She has a slender, girlish figure of medium height. Her eyes are of the deepest blue, hair light, and was prettily coiled high, Notwithstanding, she was initiating a new laundry woman and caring for a sick child. woman and caring for a sick child. She was nestly attired, and her coeey honie was in perfect order. She is the fond mother of two little girls.

The youngest member of the Council elect is Mrs. Carrie Johnson. She is only 23 years old, and was brought up in Oskaločsa. She is the eldest Gaughter of Terry Critchfield. She was for a time a student at Bethany College. Her political views are Democratic, religious Episcopal. The reporter was shown into a pleasant parlor, fragrant with the scent of roses and bright and pretty things wrought with her own dainty hands. There were books and magazines in profusion, and music too. The bostess received her guest in a pretty "at home" of some dark surah. Her blue eyes were shaded by fluffy blonde hair, which was loosely coiled over her head.

Truly are the Mayor and members of Oskalosa Council representative women. They are bright, cheery, intelligent, with a large share of common sense. They are representative mothers and housekeepers too, for although the house cleaning season is on and some were washing, all busy with or directing their housework, not one was found untidy, not one but whose hair was neatly doze, not one but whose hair was neatly doze, not one but whose hair was neatly doze, not well, can they not direct and guide the municipal affairs of their city? They have every appearance in their favor. They may differ politically, but they are staunch Prohibitionists, they are for principle more than party. Long may the "city mothers" of Oskalosa rule.

So did our Father watch the precious boy

He saw the sweet limbs faltering, and saw
Rough ways before us, where my arms would

So reached from heaven, and, lifting the dear

Who smiled in leaving me, He put him down
Beyond all hurt, beyond my sight, and bade
Him wait for me! Shall I not then be glad,

THE ALDERMEN INSULTED.

came up for discussion in the shape of a letter from Public School Secretary Wilkinson, stating that there were only 15 children of school age on the Island. The committee determined to report to Council in favor of granting the desired site.

On motion of Ald, Galbraith the committee resolved to remove the fence surrounding the Hortfoultural Gardens, trusting to the citizens good sense to see that the grounds sustained no injury from their children or their dogs. Superintendent Chambers asked the committee to furnish alim with a cierk, as he could not do office work and attend properly to his outside duties in the parks. The committee decided to appoint one, and also to have a resident caretaker on the Island Park.

The county sent in a bill of \$670, or \$6 a day for 35 days, for use of the County Court room for that period as a Police Court. The secretary was instructed to write back that the committee considered, the bill exorbitant and tendering \$2 per day as a proper figure. In the matter of the Drill Shed site the City Solicitor wrote the committee as follows:

"If and that the late City Solicitor instructed Messra. Robertson, Beulton and D. M. Defoe to collect information as to the values of the property, rents, buildings, etc. Will your committee arrange for a joint report from these gentlemen and the Assessment Commissioner as to the values of the several parcels of land proposed to be taken, and as to whether the owners and occupants will accept the valuations so agreed upon without proceeding to arbifration! I should think it advisable at the same time that other experts should be retained on behalf of the city in the event of their evidence being required. The communication was referred to the Assessment Commissioner. A petition purporting to be signed by lawyers C. V. Wormall, Herbert A. E. Kent, W. G. Muroby, N. G. Bigelow and Henry Reburn, requesting for more seasting accommodation for the members of the bur in the Police Court was couched in such insulting terms that consideration was refused it,

Rew Members of the Board of Trade.

The Board of Trade yesterday elected these new members: W. T. B. Lawrie, mill furnishings; R. L. Nelles, freight agent; James Bell, coal dealer; and H. B. Gordon, architect, all of Toronto. The President reported that the council had decided to give Secretary Wills a bonus of \$300 in addition to his leave of absence, which gave rise to some objections on the part of some of the members who thought Mr. Wills was paid enough. The report was adopted. The Board will meet at \$35 next. Thursday attennoon, when the agreement between the C.P.R. and G.T.R. will be discussed.

It was the day after election. A usually respectable appearing citizen strolled impingly down Madison-street. Mr. Citizen just now looked the reverse of respectable. His right eye wore crape, his nose was split in three different directions, and his lower lip was swollen until it bore a close resemblance to a frost-bitten tomato. One arm was convalencing in a sling, and nearly every other member bore evidence of laving seen more or less service in a losing cause. Along came a friend, who inquired of the perambulating hospital:

"Wes; but you ought to see the other fellow."

"Good gracious, man alive! you don't mean to say the other chap is worse off than you?"

and wonder now it was that they business in such a penny wise and poundfoolish plan.

The Important Peint:

But even if it cost more to produce creamery
butter, that extra cost is amply defrayed by increased prices and increased demand. The
difference between the prices of creamery and
store-packed butter in Canada is from 6 to 8
cents a pound, and in England the discrepancy
is still wider.

Ontario makes 32,000,000 pounds of butter
annually, and more than half is sold at 16 cents
a pound and under, when it might be bringing
20 or more. This is a loss of \$1,800,000 a year to
the butter makers of Ontario.

A Change Urgently Needed.

There is no doubt that a change in nathods is
greatly to be desired. It would benefit the
commission men, the exporters, the Canadian
consumers and would add to the country's
wealth. There is only one way to establish an
export trade and that is by the general adoption
of the creamery system. Butter makers should
think about these facts and act promptly.
