that of America will very soon be known in the railways of this kingdom—is applicable to the entire construction and not renewal of aware that the unanimous verdict of contemporaries must also be the judgment of history, any portion of the permanent way. It will be recollected that we pointed out the casting iron sleepers as peculiarly applicable to recwals—the portion of the new system natented by Mr. Barrow, of the Midland, is the substitution of a combined wroughtier and across or longitulinal wooden sleeper. The wronghtirms sleeper for the present detacffed foll and agrees or longitulinal wooden sleeper. The wronghtirms sleeper is a longitulinal wooden sleeper of the wronghtirms sleeper is a longitulinal wooden sleeper of the wronghtirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper of conditined wrongthirms sleeper is a longitulinal wooden sleeper is a longitulinal woode remember that, four years after Jeffries' sleeper, with the pail of a superior manufac-

sleeper, with the rail of a superior manufacture, will not be more expensive than the ordinary permanent way, with its comparatively perishable wooden sleepers.

We learn that an experimental length of the wrought from rails and sleepers is about to be laid down upon the Midland line, and we have no doubt that the Messrs. Burlow will reap the rich reward which their endeavours to reduce the working, expenses of railways so eminently merit.

We should be doner investigate to the

reaction with astonishing celerity? But I was should be doing injustice to the positive of a very ingenious plan for the substitution of iron for wooden sleepers, if we did not here mention the name of Mr. Greaves, whose invention we some time since introduced to the notice of our readers at considerable length. As far as the question of substitution of iron for wooden sleep. ers is concerned, the experiment made upon advanced too far in its civilisation long to permit upon its stages heroes like Alua or we fear there are defects in it which are avoided by the upon its stages heroes like Alua or avoided by the upon its stages heroes we fear there are defects in it which are avoided by the use of Messrs. Barlow's system.

Haynau. I conjure you publicly to protest against the judicial butchering of prisoners of tem.

Sudden Death in a Railway Carriage.—
An affecting exemplification of the utter uncertainty of human life was winnessed last Sundays morning at Wolverien station.—
When the train from London arrived, at a susual.

THE ARTIC EXPEDITION. bout half past nine, the porters, as usual, opened the doors of all the carriages. In a compartment of a first-class carriage, an elderly gentleman was found to compare the carriage of the carriage. derly gentleman was found reposing in a corperience in the Artic regions before she enner next the window, his foot resting on the tered the church, delivered an address the cushions of the opposite seat, his eyes closed, other day at Whitby, in which he expressed and his whole appearance suggesting the idea very conficent hopes of the safety of Sir John that he hadrisen outlier than was his custom and that, being alone in that section of the them upon the considerations that it was not carriage, he had composed himself and fallen likely some little band out of 140 scientific asleep. He had so; but it proved a sieep from and hardy men should have made their way, which he will not awake till the earthquakes had there been a catastrophe, within the of a future day shall dissolve the mysteries range of some fishing station; said that, had of Egyptian pyramids, and open the graves the vessels been destroyed in the interior of Babylon and Nineveh. This gentleman tices, the very bodies of ice would afford platwas a retired solicitor; he had left the house forms for escape; and because, supposing no of a relative in excellent health, at seven that catastrophe, they might, just the same as morning, and had arranged to attend church at Stamford that afternoon, and transact some of or a like period, and yet be safe. The important business the next day. He died probability, too, was, though he would reof apoplexy, and had not the faintest appears ceive the details with doubt, that the general ance of a moment's suffering. About seven story of the E-quimaux is true, from the acyears ago an event of a similar kind occurred oracy of their definations of localities. The at the same station. An elderly man, in Season was, no doubt, wearing away, but

enquiring particularly if she was the person were those amongst our absent countrymen he named; when he immediately left without making himself known.

"I here inclose the amount of a sum of the results of the property of

money which I dishonestly took from your former husband several years ago. I have been on the seas for many years, and about the resource of Sir John Franklin in case six months ago I was in great danger of go of provisions falling short: - Deer migrate inc to the bottom, when all my sins stared at over the ice in the spring from the main

When I can eashers I found your large herds, and return in the autumn — hustand was dead. I have searched for you These lands are also the breeding places of and ain thankful to find where you lived — wast flocks of snaw-geese; so that, will I hope you will forgive me, as I, think God ordinary skill in a riting, a large supply I troduction to General Taylor, president of has.—I he way of the transgressor is hard. food might be procured on their shores in the the republic.
