long companionship sometimes contract an affection for hateful animals, as, a moase, a cockroach, or a spider.
It is a somewhat singular characteristic of our poor humanity, that those who, from their studies and experience, should be the best qualified to purge the law of its impurities, are, in fact, frequently the least qualified. The traditions of the past, and an utter forgetfulness of the necessary sent and the future, unfit them for progress.

REFORM.

PENNIT me to occupy your useful co-lumns on the subject of abuse in the Halifax newspapers, heaped so lavishly upon the Honble. Joseph Howe (Provincial Secretary for Nova Scotia.) The Colonist and other for Nova Scotia.) The Colonist and other papers should remember, that such violent and abusive language fails in the purpose of its malignity, and only creates a reaction in his favour.

But why (the enquirer may ask,) is such for Nova Scotia.) The Colonist and other But why (the enquirer may ask,) is such last eighteen months.

a tirade? of what criminal charge stands the Honble. gentleman committed? We answer, LUNACY AND SPIRIT RAPPINGS .- Mr G Honble, gentleman committed? We answer, from all that we can see stated, he passed few electric telegraph despatches without paving for them.

In New Brunswick, I understand that the Executive Councils' letters and telegraph despatches are invariably franked; the same rule I take it holds in the Sister Province. through intercourse with mediums. The question of his sanity has been investigated by a Board of Commissioners in New York, who came to the conclusion that he was in-Most men in New Brunswick believe Mr. Howe to be a man of great talent, and deserving well of his Country, and that were it not for a factious opposition in Nova Sco-lia, got up by men seeking office, (not patriotism.) a better state of things would now sane, and decided that his property, about \$30,000, be divided among his legal heirs.

there exist. The political feud between Mr. Howe and Mr. Johnston has existed for twenty years, and the fine Province of Nova Scotar ter gives the following as his idea of Trans-Switzerland were feared and the Pope it is that is nearly ruined by these two political cendentalism:—Transcendentalism is that Paris and, had postponed the date of his visit to antagonists.

It is generally understood that Mr Johnstone is an anti-tailroad man; if so, he has so far played an insidious game; professionally speaking, his tactics are of the Herodian character. But supposing the present scheme of Companies succeeds, the Province will then require to raise funds in England by Provincial bonds or otherwise; cally tantallable in the circumanubulating and what effect will the attack of the Colonic commotion of ambilioques volominousness.

Havre, March 15.— Sales of Cotton for the last five days were 3200 bales, at a decline of fully two francs. Emports, 19,000

Well, Mrs. Price, your husband told me you have betimes a breaking out about the mouth, and I've bro't a box o' intment will mouth, seeing bringing lorty seven passengers.

The America reached the Mersey on the 14th.

The propeller Andes was discharging part of her cargo-to repair.

The Overland Mail from India had arrived in London with dates from Calcutta to Feb.

Bombay 12. China Jan. 13.

Well, Mrs. Price, your husband told me you have betimes a breaking out about the mouth, and I've bro't a box o' intment will cure ye!

At this announcement Mrs. Price, seeing her flusband's jest, and firing up at once, raised the brush with which she was cleaning to flow the management of the cargo-to repair.

The Overland Mail from India had arrived in London with dates from Calcutta to Feb.

5. Bombay 12. China Jan. 13.

"Oh, Mrs. Price, be ye gone mad!" The revolution in Ava had been confirmed. The King of Burmah had been deposed by his brother. An English Ambassador had set out for the Capital.

Commerce in India is active.

The Australian mail packet had put back for the fourth time leaky.

She sprung aleak in the Bay of Biscay, and was only saved from foundering by the line.

From that day, however, Mrs. Price was wholly cured of her scolding habits. If ever she shows any symptoms of getting into a passion, David has only to look into her face and say, "I think I'd better get a box of that intent," and that is the end of the matter. David honorably paid the Doctor his Is. 6d., and treated him to make him forget his poundance of the ordinary liquid dyes employed for woof the ordinary liquid dyes employed for woof the ordinary liquid dyes employed for woof ing.

Marysville has subscribed \$250,000 for a plank road to Nevada.

An explosion occurred at a colliery in Monmonth on the 12th, killing 12 persons.

An explosion occurred at a colliery in Monmonth on the 12th, killing 12 persons.

A republican demonstration took place on the 13th at which nearly 29,000 men were business is in a specially flourishing condition at the present time in Massachusetts—
The several yards at the port and at Mediford are full of work, and have more orders than can be immediately complied with. At East Boston, Mr. McKay has, besides the great clipper of 4,000 tons, two others in process of building, and has just laid the keel of a new ship for Messrs. Sampson and Tappan. Mr. Samuel Hall has also at his yard two fine ships under way, which will be soon ready to be launched. At South Boston,

lt may be doubted whether any branch of having been killed.

It is denied that Mazzini escaped on board the English frigate. He is supposed to be secreted in Pielmont

Marshal Haynau died at Vienna on the 14th of March.

Advices from China state that the rebellion was making rapid progress. Trade was inactive. Large operations, however, had been made in Teas at an advance in Greens and Congous.

The Bourse was exceedingly heavy as serious complications between Austria and Switzerland were feared and the Pope it is sail, had postponed the date of his visit to

left to work their way as best they may among the lumps and clods in which the land abounds. It is clear to see that by this method but very imperfect results are obtained, as it is by the most minute division of the particles that the roots of plants are enabled Have, March 10.— Sare the last five days were. 3200 bales, at a decline of fully two francs. Empores, 19,000 bales. Reports from the principal manufacturing districts are less favourabler. Breads stuffs are without material change, but prices are tending downwards.

From Havana.—A letter from Havana, received in New, York, dated 22d, states that the roots of plants are enabled to draw from the soil the greatest amount of sustenance and support. With the surface of the earth baked, dried and cracked a proper degree of moisture and warmin is not secured for the proper development of the grain; and when impartial filiage only isetting in the neighbourhood of Quirican, 35 miles in the neighbourhood of Quirican, 35 miles.
