DEDICATED BY SPECIAL AUTHORITY

Her Majesty the Oncen THE BRITISH COLONIES! Their History, Extent, Condition and Re-

sources, R. Mentgemery Marin, Esq.,

PROSPECTUS. HE vast importance of the Colonial and Transmarine Possessions of the Crown gradually becoming bet er understood by e people of England, who are learning to preciate more justly the influence they have fready exercised in elevating this country to a present political and commercial position among European nations, and the ample means they afford of providing room for a superabundant population; consequently of creating new markets for our commerce, re-munerative employment for our lab ur, and afe and profitable investments for unemployed

a ital.
The British Colonial Empire is without a arallel in history. It comains a cultivable crea of two million square miles, and includes in its possessions—rich islands, fertile plains,

lown the energies of the nation may be contown an energies of the nation may be con-exted into a blessing. A population of thirty nillions on an area of seventy-six millions of tatute acres in the United Kingdom, of which array million acres are waste lands, shows a ensity of four hundred inhabitants to each uare mile of arable surface. This alarming ne thousand births a day-nearly a mouth very minutes an augmentation not only benome, but far outstripping our means of crea-

ing property for its support.

Our Colonies offer a noble field for British Indu. ry. They could sustain with ease an addition of one hundred millions to their preent population. In the Canadas there are not six individuals to the square mile of area, Our Colonies offer a noble field for British ndt. ry. They could sustain with case an addition of one hundred millions to their preent population. In the Canadas there are not six individuals to the square mile of area, and another area in the square mile of area, and contracted and Feverish Feet. Wounds, Brnises in the Backs. Cracked heels, sgratches, kicks, &c., on horses. Carlton's Ring Bone Care, for the cure of ring-hone, blood spaving wondyalls and sulint—a certain
