Minister Discusses His Wife's Troubles

Rev. A. H. Sykes, former pastor of the Watkins Park Presbyterian Church, Nashville, Tenn., says: "After seeing what Tanlac has accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have seen anything give such prompt results. Mrs. Sykes has been in delicate health for ten months, suffering from stomach trouble and nervous breakdown."

"I frequently sought medical advice but Tanlac is the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household duties. I think it only a short time until her health will be fully restored."

KARSDALE

Drs. J. B. and Arthur H. Bogart spent most of last week in Digby, having a new engine installed in the Evangeline, and other improvements which will materially improve her as a pleasure boat.

J. Russell Longmire, of Somerville, (Mass.), who has spent the summer in these parts, leaves in a few days to visit his daughter in Grand Manan and from thence will proceed to his home. Whilst here he disposed of his marsh to Horace M. Johnson. His many friends hope that he will be spared to return again next summer.

Capt. L. H. Porter has been transferred to the command of the S. S. Southern Cross, being finished by the New York Shipbuilding Co. at Camden, N.J. The "Southern Cross" is a magnificent ship, with all modern improvements, 21000 tons, an oil burner and will play between New York and Buenos Ayres, calling at Rio Janeiro and Monte Video, under management of Munson Steamship Co.

The ladies of the Episcopal Church held a supper at the residence of Edward Shafter on Tuesday evening, August 11th. The attendance was large and the supper an excellent one, chicken pie, roast beef, with all that goes with it, and cake and pies in great profusion, made the one who possessed a good appetite happy beyond measure. The proceeds amounted to about \$65. At a late hour the company dispersed, all pleased that they were there. Mr. Stan Mills, with his harp; Miss Ella Shafter, with her banjo, and Mrs. Wm. C. Shafter at the organ, with Kenneth Everett and Herman Everett with mouth organs, and vocal accompaniment added much to the pleasure of the occasion.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if the trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers, or by mail at 25c. a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

HE HANGS BY HIS TEETH

Bonette, Great Aerial Artist Has Something New For St John Exhibition.

How would you like to go up, straight up, nearly one mile in the air, hanging by your teeth alone to a trapeze, suspended from a balloon by a vicious-looking hook?

How would you like to have that bomb explode with an ear-splitting roar and be cut suddenly loose from the sustaining balloon?

How would you like to take your chances on the parachute, concealed in that bomb opening its wings in the smoke-beclouded air, in time to check your descent to the waiting earth?

Too many thrills all once, you say. But you will see all these and more at the big, free, out-door show at the St. John Exhibition which opens its doors September 3rd, only a few weeks hence.

Bonette Brothers, great aerial artists, will perform daily this daring feat which surpasses any aeroplane act ever seen. Also at the Exhibition will be the educated Ekoon family, the Mallia-Barte troupe of comedy artists, high-wire walkers and trick bicycle riders—a real circus within an Exhibition.

Industrial and Live Stock exhibits promise to surpass all previous records at the fair. Excursion rates are again in force on all railways and the general interest in the Exhibition is evidence that St. John is to see a great influx of visitors.
